Owned and Owner Anneke Jacob,2003 **Owned** Joshua A. T. Fairfield,2017-07-10 In this compelling examination of the intersection of smart technology and the law Joshua A T Fairfield explains the crisis of digital ownership how and why we no longer control our smartphones or software enable devices which are effectively owned by software and content companies In two years we will not own our smart televisions which will also be used by advertisers to listen in to our living rooms In the coming decade if we do not take back our ownership rights the same will be said of our self driving cars and software enabled homes We risk becoming digital peasants owned by software and advertising companies not to mention overreaching governments Owned should be read by anyone wanting to know more about the loss of our property rights the implications for our privacy rights and how we can regain control of both **The Politics and Governance of Blame**

Matthew Flinders,Gergana Dimova,Markus Hinterleitner,R. A. W. Rhodes,R. Kent Weaver,2024-06-24 From coping with Covid 19 through to manging climate change from Brexit through to the barricading of Congress from democratic disaffection to populist pressures from historical injustices to contemporary social inequalities and from scapegoating through to sacrificial lambs the common thread linking each of these themes and many more is an emphasis on blame But how do we know who or what is to blame How do politicians engage in blame avoidance strategies How can blaming backfire or boomerang Are there situations in which politicians might want to be blamed What is the relationship between avoiding blame and claiming credit How do developments in relation to machine learning and algorithmic governance affect blame based assumptions By focusing on the politics and governance of blame from a range of disciplines perspectives and standpoints this volume engages with all these questions and many more Distinctive contributions include an emphasis on peacekeeping and public diplomacy on source credibility and anthropological explanations on cultural bias and on expert opinions on polarisation and de politicisation and on trust and post truth politics With contributions from the world s leading scholars and emerging research leaders this volume not only develops the theoretical disciplinary empirical and normative boundaries of blame based analyses but it also identifies new research agendas and asks distinctive and original questions about the politics and governance of blame The Book of Trespass Nick Hayes,2020-08-20 THE SUNDAY TIMES
