book introduces five vignettes profiling best in class companies that were sustainable from the start and international case studies on business sustainability efforts spanning industries from hospitality to waste management fashion finance and more Finally Bridges and Eubank provide frameworks and in depth direction firms can leverage when accelerating their transition to more sustainable business models The book is a perfect guide for mid level to senior managers seeking to understand this fast changing business environment how to factor sustainability into their decision making and why the SDGs changed everything

Coastal Hazard Management Norbert P. Psuty, Douglas D. Ofiara, 2002 As with most shorelines around the world New Jersey beaches are slowly but inexorably being eroded threatening coastal structures and development In some years more sand is deposited than removed but all of the state's monitoring devices show that sea level is gradually rising and pushing the New Jersey shoreline inland The shore is a valuable resource and its natural cultural and economic attractions draw a multitude of permanent and temporary residents each year extending housing and commercial development onto areas that were once swampland Not surprisingly development at the water's edge has been accompanied by an increasing exposure to the natural hazards of the coastal zone erosion flooding and wind damage In this book Norbert Psuty and Douglas Ofiara incorporate perspectives from the areas of coastal sciences economics public policy and land use planning in creating a systematic plan for coastal management and protection It has been more than a decade since New Jersey developed the nation's first state shore protection plan and this volume provides a timely evaluation of its achievements and future challenges This self contained book provides all of the relevant theories models and examples so the reader will not need to refer to any other literature to gain an understanding of the issues and policies surrounding shore protection It is the authoritative handbook for practitioners and policy makers in many fields including coastal science and management and engineering as well as public policy and economics
