Apple in China Patrick McGee, 2025-05-13 THE NEW YORK TIMES BESTSELLER Absolutely riveting Peter Frankopan author of *The Silk Roads* Disturbing and enlightening Chris Miller author of *Chip War* Hugely important Rana Foroohar author of *Makers and Takers* A once in a generation read Robert D Kaplan author of *Waste Land* As Trump wages a tariff war with China seeking to boost domestic electronics manufacturing this book offers an unparalleled insight into why his strategy is embarrassingly naïve Apple isn't just a brand it's the world's most valuable company and creator of the 21st century's defining product The iPhone has revolutionized the way we live work and connect But Apple is now a victim of its own success caught in the middle of a new Cold War between two superpowers On the brink of bankruptcy in 1996 Apple adopted an outsourcing strategy By 2003 it was lured to China by the promise of affordable ubiquitous labour As the iPod and iPhone transformed Apple's fortunes their sophisticated production played a seminal role in financing training supervising and supplying Chinese manufacturers skills Beijing is now weaponizing against the West Investigative journalist Patrick McGee draws on 200 interviews with former Apple executives and engineers to reveal how

Cupertino's choice to anchor its supply chain in China has increasingly made it vulnerable to the regime's whims. Both an insider's historical account and a cautionary tale, *Apple in China* is the first history of Apple to go beyond the biographies of its top executives and set the iPhone's global domination within an increasingly fraught geopolitical context. *Dying for an iPhone* Jenny Chan, Mark Selden, Ngai Pun, 2020-06-02. Suicides, excessive overtime and hostility and violence on the factory floor in China. Drawing on vivid testimonies from rural migrant workers, student interns, managers and trade union staff, *Dying for an iPhone* is a devastating expose of two of the world's most powerful companies, Foxconn and Apple. As the leading manufacturer of iPhones, iPads and Kindles and employing one million workers in China alone, Taiwanese investor Foxconn's drive to dominate global electronics manufacturing has aligned perfectly with China's goal of becoming the world leader in technology. This book reveals the human cost of that ambition and what our demands for the newest and best technology means for workers. Foxconn workers have repeatedly demonstrated their power to strike at key nodes of transnational production, challenge management and the Chinese state and confront global tech behemoths. *Dying for an iPhone* allows us to assess the impact of global capitalism's deepening crisis on workers. *iPhone 11, 11 Pro & iOS 13* Melissa L. Moody, Getting a new iPhone is exciting; it can almost feel like getting a new toy. The iPhone 11/11 Pro, which is one of the latest additions to the Apple iPhone family, is finally out after much anticipation and speculation. The iPhone 11 was launched to replace the iPhone XR, XS and XS Max devices that have been phased out by Apple. These new iPhone devices came preloaded with the iOS software which was just launched in September 2019. The iOS 13 comes with lots of new features that can look a little overwhelming when using it for the first time, even for old iPhone users. This book would help you explore all the new features in the iOS 13 as well as guide you in steps to follow to achieve better productivity with your iPhone 11/11 Pro. This guide will help you explore in the world of iPhones. **Business Week**, 2010. India Weekly Telecom News July 23, 2010.

Media Education for a Digital Generation Julie Frechette, Rob Williams, 2015-10-14. Media education for digital citizenship is predicated upon the ability to access, analyze, evaluate and produce media content and communication in a variety of forms. While many media literacy approaches overemphasize the end goal of accessing digital media content through the acquisition of various technology software apps and analytics, this book argues that the goals for comprehensive and critical digital literacy require grasping the means through which communication is created, deployed, used and shared, regardless of which tools or platforms are used for meaning-making and social interaction. Drawing upon the intersecting matrices of digital literacy and media literacy, the volume provides a framework for developing critical digital literacies by exploring the necessary skills and competencies for engaging students as citizens of the digital world. *Security and Privacy in Mobile Information and Communication Systems* Andreas U. Schmidt, Giovanni Russello, Antonio Lioy, Neeli R. Prasad, Shiguo Lian, 2010-11-29. MobiSec 2010 was the second ICST conference on security and privacy in mobile information and communication systems. With the vast area of mobile technology research and application, the intention behind the

creation of MobiSec was to make a small but unique contribution to build a bridge between top level research and large scale application of novel kinds of information security for mobile devices and communication
