Administrative Assistant

---

Dear Hiring Manager,

I've recommended your games more times than I can count, so when I saw your executive assistant opening, I knew I had to apply.

I'm an administrative assistant with 6 years of experience working in mostly tech and biotech companies. I've supported teams across HR, Sales, and even worked directly with the CEO.

When I looked at the job description, the part that stood out to me the most was the need to work with sensitive documents. I've done that at Biomed, where I handled both employee data and confidential lab data. There I learned how to be more disciplined with access control and file organization.

Understanding Google Workspace has also played a big part, especially at TechHorse, where I supported the IT department in managing employee email accounts. I helped manage employee email accounts and stayed on top of help tickets related to logins and access. It really taught me how to stay organized even when juggling multiple priorities.

Lately, I've been exploring opportunities in the gaming space, and 8Bit Co. seems like a great place to apply these skills while continuing to grow.

If this sounds like the kind of experience your team is looking for, I'd love to schedule a time to connect and explore how I can contribute.

Thank you,

Todd Chavez

*European SPCs Unravelling* Alexa von Uexküll, Oswin Ridderbusch, 2018-11-08

While supplementary protection certificates (SPCs) are governed by the same substantive rules in all Member States of the European Union and the European Economic Area, they are national IP rights. The formal requirements and procedural practices of the national patent offices granting SPCs still differ significantly and these divergences can have a substantial impact in the prosecution of SPCs across Europe. This one of a kind handbook provides an easily accessible overview of SPC law in Europe covering all substantive and procedural aspects of prosecution, enforcement and invalidation as well as SPC related aspects of unfair competition law. Following an overarching European chapter which addresses general considerations and the relevant European Union law including the jurisprudence of the Court of Justice (CJEU) and the EFTA Court, this book contains separate national chapters for eleven key jurisdictions: i.e. Germany, the United Kingdom, France, the Netherlands, Belgium, Italy, Spain, Portugal, Sweden, Iceland and Switzerland, as well as a concluding chapter summarizing the fundamentals of SPC law and practice in sixteen further European countries. The contributors to this book, all experts in the field of SPCs in their respective jurisdictions, provide clear and hands on guidance on a range of specific topics of practical and strategic relevance including: What is or is not an active ingredient amenable to SPC protection? What is required for an active ingredient to be protected by a basic patent? What relevance has the core inventive advance of the basic patent? Can SPCs be obtained for loose combinations of separately formulated active ingredients? Which basic patent should be chosen for an SPC filing? Which types of marketing authorizations can be relied upon? Under which conditions can SPCs be obtained for a new specific salt, ester or other derivative of a previously approved active ingredient? For a new specific enantiomer of a previously approved racemate and for new therapeutic applications of previously approved active ingredients? Can affiliated companies obtain several SPCs for the same product? Does the revocation of an SPC enable the filing of a new SPC for the same product? What are the limits to the filing of unfriendly SPCs based on third party marketing authorizations? What relevance does the product definition of an SPC have for its scope of protection? What is the scope of protection of an SPC in relation to derivatives of an active ingredient? How is the SPC term calculated and how can an erroneous term be corrected? How can SPCs and paediatric extensions be invalidated and which grounds of invalidity can be invoked? What pitfalls must be avoided in terms of unfair competition law? This book provides invaluable assistance to IP practitioners in devising successful pan-European SPC filing strategies.
