All You Need to Know About the Music Business Donald S Passman, 2014-11-06 All You Need To Know About The Music Business The new edition of the industry bible Los Angeles Times by Donald S Passman No one understands the music business and the changes it has undergone in recent years better than LA lawyer Donald Passman For 20 years his book has offered detailed advice to artists and executives novices and experts alike on how to thrive in these volatile times This completely revised edition sets out recent developments in record deals copyright new technologies and film music It also offers unique advice on how to navigate your way through the ins and outs of songwriting music publishing merchandising and performing Whether you re a newcomer or an established professional All You Need to Know about the Music Business is an essential companion It will also be loved by readers of The Music Business and How Music Works by David Byrne The definitive text on the business of music written by the man the most talented artists in the world look to for advice Ron Rubin co head of Columbia Records Should be required reading for anyone planning or enduring a career in the biz Rolling Stone Donald Passman is a graduate of the University of Texas and the Harvard Law School For many years he has practised law with the LA firm of Gang Tyre Ramer and Brown where he specializes in the music and film industries He represents many famous music clients He lives in LA with his wife and four children and plays guitar and five string banjo Collective Management of Music Copyright Qinqing Xu, 2023-04-17 Two of the objectives of the Chinese Copyright Law are to protect the copyright of authors to their literary and artistic works and encourage the creation and dissemination of works In practice however in spite of the existence of the Music Copyright Society of China MCSC that was established to assist with exercising copyright music creators in China remain in need of help to protect and manage their fragmented copyright The MCSC was the first collective management organisation CMO in mainland China and is the only CMO in the field of musical works While there is a large music industry and copyright business in China the MCSC only had 11 356 members at the end of 2021 The third amendment of the Chinese Copyright Law was initiated in 2011 and came into effect in June 2021 after a long debate for almost ten years The discussion of the third amendment has highlighted the controversial topic of collective management of copyright This book explores the adequacy of the MCSC as an intermediary representing rights for music creators The main argument developed in this study is that the work of the MCSC for individual composers and lyricists is hampered by shortcomings in the regulatory regime as well as by a lack of members rights to participate in the management of their own rights and by the ineffective international cooperation between the MCSC and other musical CMOs overseas The analysis is undertaken through a case study approach comparing the collective management systems of music copyright in China the United States and Australia and addressing the question of how musical CMOs operate in these countries Specifically three perspectives are examined the regulatory systems designed to limit the misuse of those CMOs monopoly members rights in the organisations and international cooperation between these CMOs Overall the main findings of this

book suggest that the MCSC in China could work more effectively to protect music creators interests In contrast although the operational frameworks of the American Society of Composers Authors and Publishers ASCAP and the Broadcasting Broadcast Music Inc BMI in the United States and the Australasian Performing Right Association APRA in Australia are not perfect models the systems in these two countries may at least provide reference points for potential improvement of the regime of the MCSC The research recommends three courses of action strengthening the regulatory design overseeing the MCSC s monopoly clarifying the relationship between the MCSC and its members while providing the members with the right to manage their own copyright and improving the international cooperation between the MCSC and CMOs in other countries
