This book explores total information awareness empowered by social media. At the FBI Citizens Academy in February 2021, I asked the FBI about the January 6 Capitol riot organized on social media that led to the unprecedented ban of a sitting U.S. President by all major social networks. In March 2021, Facebook CEO Mark Zuckerberg, Google CEO Sundar Pichai, and Twitter CEO Jack Dorsey appeared before Congress to face criticism about their handling of misinformation and online extremism that culminated in the storming of Capitol Hill. With more than three billion monthly active users, Facebook's family of apps is by far the world's largest social network. Facebook as a nation is bigger than the top three most populous countries in the world: China, India, and the United States. Social media has enabled its users to inform and misinform the public, to appease and disrupt Wall Street, to mitigate and exacerbate the COVID-19 pandemic, and to unite and divide a country. Mark Zuckerberg once said, "We exist at the intersection of technology and social issues." He should have heeded his own words. In October 2021, former Facebook manager turned whistleblower Frances Haugen testified at the U.S. Senate that Facebook's products harm children, stoke division, and weaken our democracy. This book offers discourse and practical advice on information and misinformation, cybersecurity, and privacy issues, cryptocurrency, and business intelligence, social media marketing, and caveats to government and activism, as well as the pros and cons of total information awareness, including the Edward Snowden leaks. Highly recommended. T.D. Richardson, *Choice Magazine*. A great book for social media experts. Will M. AdWeek. Parents in particular would be well advised to make this book compulsory reading for their teenage children. David B. Henderson, *ACM Computing Reviews*. [Video Nation](#) Jefferson Graham, 2013
