Corporate Risks and Leadership Eduardo E. Mariscotti, 2020-05-13 The context of business has been changing for companies in recent years and following numerous corporate and accounting scandals many countries have increased the number of national and international regulations designed to ensure transparency and compliance with the law Because of the existence of these new regulations the level of control the severity of sanctions by governments and the amount of the fines for noncompliance have increased dramatically In parallel with the technological revolution in communications business management has become more transparent and any negative event is uploaded to social networks and shared with an indeterminate number of people This change in the regulatory sanctioning and technological context has forced large companies to rethink risks investments and budgets to deal in this more complex environment To transition to this change some companies have included ethics and compliance programs in their corporate agenda along with marketing and sales plans strategies growth targets investment plans and or talent acquisition While each industry has its particular risks in this book the author describes the essential elements that any effective ethics and compliance program should contain This book is a source of information that connects yesterday with today The author shares observations and lessons of the past to suggest corporate leaders implement effective ethics and

compliance programs to protect their organizations and themselves The book covers theories of ethics but with an eye focused on practical application Risks ethics and compliance are analyzed with an overall vision connected to the reality of business life without getting bogged down in abstract thinking or in technical and regulatory details Ethics and compliance are disciplines that have increasingly achieved greater recognition in organizations Thus due to the importance of risk management in the business world and the necessary involvement of the CEO and the board of directors it seems appropriate that executives get access to a book about risks ethics compliance and human resources directed not only to compliance experts but also to any organizational leader This book is a wake up call that allows business leaders to understand the benefits of implementing an effective ethics and compliance program that will help members of organizations to make the right decisions and act within the law If they do they can better prevent and react to the difficult obstacle course of risks dangers and threats that organizations face and that may jeopardize the sustainability resilience and survival of companies

Integrated Management Robert Sroufe,2018-10-05 An exciting vision of what we can aspire to when sustainability is integrated within strategic practices across enterprise functions systems supply chains and cities The book will enable decision makers to recognize a new era of innovative value creation *A Leader's Gift* Barry Banther,2014-04-22 You can no longer count on old motivational tricks to inspire loyalty among your associates The rules of leading have changed and now you must be able to take a diverse team and win with them quickly Barry Banther knows how to equip you for today's business world because he knows what lasting leadership is made of He has identified five qualities that aren't things leaders have rather they are things they give away freely and frequently to everyone they lead in the workplace By embracing and demonstrating the five qualities expounded in this book you will become a leader who brings out the best in your associates whether you're a new manager or you occupy a C suite office Banther consults with and trains the teams of CEOs of family owned as well as Fortune 100 companies He has been the lead consultant on more than 400 leadership development engagements and has written 50 plus leadership training programs that are used by companies worldwide After a career in broadcasting and later teaching and administration at the college level Banther served three Florida governors as their appointee to oversee private higher education and was elected to an unprecedented three terms as chairman of the Florida State Board of Independent Colleges and Universities Having learned the hard way caring about numbers rather than people Banther can tell you with confidence that when leaders put others first they themselves become more valuable to their team and their company than any authority or job title could ever mandate That's also the best way to grow your bottom line deploy the right people with the right skills at the right time to create loyal and repeat customers *Is Self-Publishing For You?* Libi Astaire,2014-05-27 If you're an author with a just finished manuscript or an aspiring author dreaming of one day writing a book that will make the bestseller list you probably know that getting to the last words of your story isn't the end of your book's story Once your book is written the next step is to get it published In this quick guidebook I'll take you beyond

the hoopla and the hype to a down to earth look at your publishing options We ll look at the pros and cons of traditional publishing consider when a subsidy press might be a viable alternative and take an in depth look at what s really involved when an author decides to become the publisher of his or her book We ll also examine each step involved in the publishing process and come up with some sample budgets Then we ll discuss which publishing model might be best for you and your book You ve worked hard on writing your book If you want to make an informed decision about your next step this book is for you

Your Strategy Needs a Strategy Martin Reeves, Knut Haanaes, 2015-05-19 You think you have a winning strategy But do you Executives are bombarded with bestselling ideas and best practices for achieving competitive advantage but many of these ideas and practices contradict each other Should you aim to be big or fast Should you create a blue ocean be adaptive play to win or forget about a sustainable competitive advantage altogether In a business environment that is changing faster and becoming more uncertain and complex almost by the day it s never been more important or more difficult to choose the right approach to strategy In this book The Boston Consulting Group s Martin Reeves Knut Haan s and Janmejaya Sinha offer a proven method to determine the strategy approach that is best for your company They start by helping you assess your business environment how unpredictable it is how much power you have to change it and how harsh it is a critical component of getting strategy right They show how existing strategy approaches sort into five categories Be Big Be Fast Be First Be the Orchestrator or simply Be Viable depending on the extent of predictability malleability and harshness In depth explanations of each of these approaches will provide critical insight to help you match your approach to strategy to your environment determine when and how to execute each one and avoid a potentially fatal mismatch Addressing your most pressing strategic challenges you ll be able to answer questions such as What replaces planning when the annual cycle is obsolete When can we and when should we shape the game to our advantage How do we simultaneously implement different strategic approaches for different business units How do we manage the inherent contradictions in formulating and executing different strategies across multiple businesses and geographies Until now no book brings it all together and offers a practical tool for understanding which strategic approach to apply Get started today

Pricing and Human Capital Stephan Liozu, 2015-07-03 The pricing profession has come a long way from having a pure clerical function back in the 1970s to a more strategic one today pricing professionals are increasingly accepted as fully fledged members of marketing and finance teams However in many of these organizations pricing professionals are often misunderstood and neglected from a career and talent perspective Furthermore the literature is still silent on how to manage and develop pricing teams *Pricing and Human Capital* explores the specific nature of pricing human resources and focuses on how to manage pricing teams pricing talent pricing careers and how to organize the pricing function for success It is dedicated to the pricing function and is aimed at helping pricing professionals manage their career within marketing finance sales or IT departments By focusing on specific practical tips tools and recommendations that pricing and HR teams can adopt to

improve their relationships and including extensive interviews with senior pricing executives it is the perfect toolkit for both HR and pricing professionals This valuable textbook with its collection of cases in pricing will also be essential for students and tutors of marketing and sales

The Venture Alchemists Rob Lalka, 2024-05-14 Gold Medalist 2025 Axiom Business Book Awards Business Ethics Future Trends category Shortlist 2024 Best in Business Book Awards Society for Advancing Business Editing and Writing We once idolized tech entrepreneurs for creating innovations that seemed like modern miracles Yet our faith has been shattered We now blame them for spreading lies breaking laws and causing chaos Yesterday's Silicon Valley darlings have become today's Big Tech villains Which is it Are they superheroes or scoundrels Or is it more complicated some blend of both In *The Venture Alchemists* Rob Lalka demystifies how tech entrepreneurs built empires that made trillions Meta started as a cruel Halloween prank Alphabet began as a master's thesis that warned against corporate deception and Palantir came from a campus controversy over hateful speech These largely forgotten origin stories show how ordinary fears and youthful ambitions shaped their ventures making each tech tale relatable both wonderfully and tragically human Readers learn about the adversities tech entrepreneurs overcame the troubling tradeoffs they made and the tremendous power they now wield Using leaked documents and previously unpublished archival material Lalka takes readers inside Big Tech's worst exploitations and abuses alongside many good intentions and moral compromises But this story remains unfinished and *The Venture Alchemists* ultimately offers hope from the people who decades ago warned about the risks of the emerging Internet Their insights illuminate a path toward more responsible innovations so that technologies aren't dangerous weapons but valuable tools that ensure progress improve society and enhance our daily lives
