Post-TV Michael Strangelove, 2015-03-27 In the late 2000s television no longer referred to an object to be watched it had transformed into content to be streamed downloaded and shared Tens of millions of viewers have cut the cord abandoned cable television tuned into online services like Netflix Hulu and YouTube and also watch pirated movies and programmes at an unprecedented rate The idea that the Internet will devastate the television and film industry in the same way that it gutted the music industry no longer seems farfetched The television industry however remains driven by outmoded market based business models that ignore audience behaviour and preferences In Post TV Michael Strangelove explores the viewing habits and values of the post television generation one that finds new ways to exploit technology to find its entertainment for free rather than for a fee Challenging the notion that the audience is constrained by regulatory and industrial regimes Strangelove argues that cord cutting digital piracy increased competition and new modes of production and distribution are making audiences and content more difficult to control opening up the possibility of a freer more democratic media environment A follow up to the award winning Watching YouTube Post TV is a lively examination of the social and economic implications of a world where people can watch what they want when they want wherever they want **Safe in My Arms** Sara Shepard, 2021-07-27 The latest novel from Sara Shepard author of Reputation and the 1 New York Times bestselling Pretty Little Liars series When the principal of an elite California preschool is attacked three moms who feel like outsiders among the school's manicured and ultra wealthy community must work together to uncover what she's hiding figure out who's trying to frame them and make sure their own secrets stay hidden Andrea Lauren and Ronnie all see themselves as good loving moms who are trying their best but they each arrive at the Silver Swans preschool Welcome Breakfast with something to hide Andrea is running away from a past on the East Coast which she cannot afford for the other parents to discover Lauren is recovering from a postpartum condition her husband has warned her not to disclose And Ronnie is hiding herself and her daughter from the one man who could at any moment appear in their lives and ruin everything she holds dear They already feel like impostors among the school's community of polished parents But then notes appear in their children's backpacks after the first day at school Notes that indicate that someone knows their deepest darkest secrets and needs them gone Does someone not want them in the community Or is it something more menacing does someone know everything When the principal of the school is the victim of an almost fatal attack it quickly becomes clear that the Silver Swans community is not as flawless as the brochures and website would have you believe The three moms must band together to uncover the school's many secrets before the other suspicious parents and town police close in and use their outsider status to blame them and before they lose what they have worked so hard for *Mediaweek*, 2010 Binge and Bingeability Arienne Ferchaud, 2020-10-15 Binge and Bingeability The Antecedents and Consequences of Binge Watching Behavior examines how the television industry has transformed over time to create the circumstances in which binge watching as a mass behavior
