Leach, Nicholas J. Natalicchio, 2023-12-04 What do Euphoria Normal People Atlanta Ramy Vida I May Destroy You Stranger Things and Lovecraft Country have in common In the 2016-2020 time period they were created these TV shows exemplified one or more of four noteworthy trends authenticity diversity sexual candor and retrospection This is the first book to examine live action fictional television shows produced within a five year period through the lens of the trends that they epitomize For each show the following is discussed the significance of the platform and the format the intentions of the creators and showrunners pertinent background information similar shows and precedents the storytelling approach the cinematic form and finally how the show is emblematic of that particular trend Since trends have the possibility of becoming part of the mainstream they are important to identify as they emerge especially for viewers who have a keen interest in narrative television shows A Hero in All of Us? Stephen Clouse, Aaron Kushner, 2024-08-26 Is heroism possible for everyone Should it be What kinds of stories do we tell when we talk about heroes and what do these stories reveal about how we view ourselves This book takes up these questions and more by reflecting on twenty first century American television shows Among the shows examined are Only Murders in the Building Game of Thrones The Good Lord Bird The Boys and Severance What we find is an entertainment landscape unsure about what a hero is or even what qualifies as heroic In a nation uncertain about heroism we see a dramatic rise in the popularity of the anti hero and even in worlds without heroes This fragmented variety highlights how the American political mind is similarly fragmented in what it believes are its highest aspirations and its deepest anxieties It is this fragmentation that may help us understand why twenty first century entertainment has elevated the heroic to the supernatural while simultaneously democratizing heroism to the point where anyone may become one A Hero in All of Us Heroism and American Political Thought as Seen on TV explores this multifaceted landscape to better understand how Americans view their heroes and themselves **Media Libraries in an Age of Unending Consumption** Mike Van Esler, 2023-10-24 As the home video market upended traditional film industry models media libraries emerged as important sources of ancillary revenue The inflection point for media library exploitation came in 2007 when Netflix launched its streaming service relying on extensive

licensing of film and television libraries to grow its subscriber base In this book Mike Van Esler examines how media libraries and business models have evolved since the home video era with particular emphasis placed on the streaming age of the past fifteen years Van Esler argues that media libraries have grown beyond their usages from the pre home video era to become central to today s corporate media strategy By studying the ways in which media library exploitation has scaled up since the turn of the new millennium the author identifies insights into larger media industry trends Ultimately this book explores the intersection of corporate media independent distributors private equity tech companies and audiences Scholars of media studies business and sociology will find this book of particular interest
