Ordinary Enchantments Ordinary Enchantments:

Ordinary Enchantments Wendy B. Faris, 2004 *Ordinary Enchantments* investigates magical realism as the most important trend in contemporary international fiction defines its characteristics and narrative techniques and proposes a new theory to explain its significance In the most comprehensive critical treatment of this literary mode to date Wendy B Faris discusses a rich array of examples from magical realist novels around the world including the work not only of Latin American writers like Gabriel Garcia Marquez but also of authors like Salman Rushdie Gunter Grass Toni Morrison and Ben Okri Faris argues that by combining realistic representation with fantastic elements so that the marvelous seems to grow organically out of the ordinary magical realism destabilizes the dominant form of realism based on empirical definitions of reality gives it visionary power and thus constitutes what might be called a remystification of narrative in the West Noting the radical narrative heterogeneity of magical realism the author compares its cultural role to that of traditional shamanic performance which joins the worlds of daily life and that of the spirits Because of that capacity to bridge different worlds magical realism has served as an effective decolonizing agent providing the ground for marginal voices submerged traditions and emergent literatures to develop and create masterpieces At the same time this process is not limited to postcolonial situations but constitutes a global trend that replenishes realism from within In addition to describing what many consider to be the progressive cultural work of magical realism Faris also confronts the recent accusation that magical realism and its study as a global phenomenon can be seen as a form of commodification and an imposition of cultural homogeneity And finally drawing on the narrative innovations and cultural scenarios that magical realism enacts she extends those principles toward issues of gender and the possibility of a female element within magical realism

Unspeakable acts left writers speechless. They knew that the atrocities of the century had to be recorded but how. A dead body does not explain itself and the narrative of the suicide bomber is not the story of the child killed in the blast. In the past communal beliefs had justified or condemned the most horrific acts but the late nineteenth century crisis of belief made it more difficult to come to terms with the meaning of violence. In this major new study Joyce Wexler argues that this situation produced an aesthetic dilemma that writers solved by inventing new forms. Although Symbolism, Expressionism, Modernism, Magic Realism and Postmodernism have been criticized for turning away from public events, these forms allowed writers to represent violence without imposing a specific meaning on events or claiming to explain them. Wexler's investigation of the way we think and write about violence takes her across national and period boundaries and into the work of some of the greatest writers of the century, among them Joseph Conrad, T. S. Eliot, D. H. Lawrence, James Joyce, Alfred D. Blin, G. nter Grass, Gabriel Garc a M rquez, Salman Rushdie and W. G. Sebald.
