The conventional literature artificially divided between micro organizational behaviour and organization theory has underexplored this obvious conjunction between people and organizations. Stewart Clegg and Cary Cooper perform a great service in helping to make good the deficiency. John Child, Professor of Commerce, Birmingham Business School, thorough and comprehensive. Thoughtful critique and new insights. Chris Argyris, James B. Conant, Professor Emeritus, Harvard University. In this second volume of *The SAGE Handbook of Organizational Behavior*, the focus is on macro organizational behavior, revealing ways in which the person and group affect the organization. Chapters are written by eminent and upcoming scholars in the field, each presenting on the major issues in organizational behavior as seen with a macro lens. The Handbook is divided into three parts: the first introducing and framing the field, the second part considering the various organizational processes involved including learning, teamwork, identity and power among others, while finally Part Three introduces organizing on a macro scale covering topics such as organizational change, design, governance and globalization. *The SAGE Handbook of Organizational Behavior: Macro Approaches* is an essential resource for researchers and students across management and organization studies.
