Verwaltungspsychologie Torsten Porsch, Bärbel Werdes, 2018-12-10 Häufig wird das Handeln in der öffentlichen Verwaltung allein auf rechtliche oder administrative Aspekte reduziert. Die Arbeit in der öffentlichen Verwaltung ist allerdings maßgeblich durch den Umgang mit Menschen geprägt. Das Verhalten und Erleben von Menschen im Kontext der öffentlichen Verwaltung wird in diesem Lehrbuch praxisnah und fundiert veranschaulicht. Ausgehend von der Personalauswahl und -entwicklung werden Aspekte der Führung und Motivation sowie Gruppenprozesse, Belastungen und Konflikte, Bürgerbeteiligung, Wissens- und Gesundheitsmanagement thematisiert. Dabei wird der aktuelle Forschungsstand aufgegriffen und die Relevanz des jeweiligen Themas an Sachverhalten aus der Praxis der Verwaltung verdeutlicht. Die einzelnen Kapitel sind stringent dem fachlichen Niveau eines Fach-Hochschulstudiums angepasst und gehen dabei systematisch auf die Anforderungen der beruflichen Praxis ein. Die Inhalte sind durchgängig didaktisch aufbereitet. Jedes Kapitel schließt mit Aufgaben zum Selbststudium ab, die zur Festigung des zuvor erworbenen Wissens beitragen. Studierende in der öffentlichen Verwaltung finden hier eine strukturierte Aufarbeitung der für ihr Studium und die spätere praktische Tätigkeit relevanten Aspekte der Psychologie. Das Lehrbuch ermöglicht dadurch den Aufbau einer beruflichen Handlungskompetenz, die für die erfolgreiche persönliche und berufliche Weiterentwicklung, wie auch für Leistung und Erfolg in der öffentlichen Verwaltung maßgeblich ist.

Founders and Organizational Development Stephen Block, Katrina Miller-Stevens, 2021-06-28 Founders and Organizational Development: The Etiology and Theory of Founder's Syndrome is designed to help today's researchers, faculty, students, and practitioners become familiar with the etiology and dynamics of Founder's Syndrome as an organizational condition challenging nonprofit, nongovernmental, social enterprise, and for-profit and publicly traded organizations. The book uses applied social and psychological theories and concepts to peel away the layers of an organizational enigma, revealing three causes of Founder's Syndrome and insight into the power and privileges assumed by founders who engage in undesirable and self-destructive behaviors leading to their termination, going from hero status to antihero. Researchers, instructors, students, and practitioners will find thought-provoking case studies from the real world of organization development practice. Segments from interviews during interventions reveal the type of emotional turmoil experienced in organizations where founder's syndrome is present. Insight is provided into accounts of well-known founders who were terminated or forced to resign. The unique features of this book include integrating theory into practice, describing a new theory about the psychological reaction of founder's syndrome victims, prevention ideas when designing new organizations, strategies for intervention using content based on research and organization development consultation experiences, and integrating feedback from students who have launched organizations.

Person-Job Fit Changes As A Consequence Of Public Management Reforms In Self-Governmental Units Omar Scharifi,2016-08-22 The research is based on the assumption that management reforms cause changes in municipal administration and its person job fit The theoretical description of the problem is possible by drawing on Edward s 1991 person job fit theorem Literature on modernisation concepts as e g the New Public Management NPM shows a general awareness of reforms consequences on the personnel The human capital theory delivers explanations for the incentive to react of both the organisation s executive level as well as the employees in case management reforms cause a discrepancy in person job fit The conducted empirical studies confirm that management reforms do result in changes with impact on the person job fit The literature research brought evidence that NPM has only been adopted partially Since the transformation some reforms and changes in legislation have laid the foundation for a self governmental administration that scores compared to the EU standard as relatively modern The investigated Polish municipalities react on the changes in the person job fit For example employees do learn in a self organised way The administration reacts on the discrepancies mainly by recruiting new staff and by reallocating the tasks Training is not applied systematically as means to problem solving and is available in many cases only in the context of externally financed projects and even then not oriented towards individual needs Changes do have enormous consequences for the personnel management of municipal administration They change the requirements for the job holders substantially and the administrations seem not able to react on the changes in a way that the personnel is enabled to meet the requirements Unclear is if such an objective seems feasible if one considers the extreme dimensions of change that spread between the paradigms of socialist administration and modernisation concepts in the sense of NPM
