Organizational Leadership Foundations And Practices For Christians:

Organizational Leadership Jack Burns, John R. Shoup, Donald C. Simmons Jr., 2014-05-16 This comprehensive text for Christians on organizational leadership provides theological foundations while tracing the historic roots of management organization and leadership theories All of this leads to five essential challenges and practices communication negotiation decision making financial stewardship and personal development **The Kenotic Organization** Brian E.

Ruffner, 2023-01-25 Although organizations frequently proclaim the desire for change renewal and transformation few ever fully embrace those ideas failing to rise above more than mere mediocrity and never realizing even a fraction of their true potential Certainly many pontificate on the nature of organizations as they live and breathe so to speak yet few question how the organization ought to be This ought belies the existential and ethical dimensions of organizing and as such points to a discipline not often associated with the organizational realm theology To this end the concept of the kenotic organization offers a much needed antidote to the syndrome described above Drawing on the divine Trinitarian kenosis observed in the creation event and witnessed in the Incarnation the simultaneous actions of self limiting and pouring out inform the organizational cause and expose a deeply entangled organizational mesh enveloping the entire cosmos which can serve as a catalyst to excite preferred organizational behaviors It is in fact the humility of Trinitarian kenosis the willingness to withdraw but also at once pour out the individual essence that generates the thrust necessary to escape the gravitational pull of convention which typical inhibits organizational flourishing **Biblical Servant Leadership** Steven

Crowther, 2018-06-13 This book explores the concepts from Scripture for Servant leadership and compare these findings with contemporary models of servant leadership It is an examination of Christian leadership for the contemporary world in its global and increasing secular context Leadership studies typically view leadership externally from the results This is a good beginning but leadership needs to also view the inside of leadership in the person of the leader Scripture is uniquely qualified in this area since its first concern is the person who leads not just in leadership behaviors The author uses examples from both the Old and New Testament to establish a new shepherd model of leadership that moves beyond the servant mode to the mode of caring direction This model will provide scholars and researchers as well as leaders themselves with a way of leading that overcomes negative forms of leadership which lead to failure *The Palgrave Handbook of Servant Leadership*

Gary E. Roberts, 2023-04-11 This reference work offers comprehensive perspectives on servant leadership Featuring a cadre of leading world class scholars practitioners and contributing authors from diverse fields of inquiry it aims to collate research on servant leadership with a particular focus on its moral and spiritual dimensions It is divided into sections that center on topics such as character philosophical influences diversity and inclusion critiques of servant leadership as well as examples of servant leaders Though first introduced in the 1970 by Robert Greenleaf the field of servant leadership is still lacking consensus on a definition and a theoretical framework The goal of this reference work is to begin to fill this gap by

assembling the scholarship of the top scholars in this field and providing a go to source for information on the theory and practice of servant leadership This handbook will serve as an essential resource for researchers scholars and students of organizational behavior human resource management and business ethics as well as consultants and business leaders interested in discovering the best leadership models to suit contemporary organizations

Rooted Leadership John Johnson, 2022-06-14 Behind many of the challenges facing us today is a failure of leadership This is not a new problem Yearning for wise guidance and effective authority is a perennial human longing We need leaders who are credible competent and committed But many leaders seem to be caught up even consumed with their own power and agendas Some see the leadership crisis as an intellectual problem believing we lack a clear theory of leadership Others view the breakdown of leadership as a result of increasing deficiency in moral character Most leadership books today revolve around the concepts of motivation inspiration empowerment and teamwork Helpful as these themes might be they miss something more fundamental Leadership needs a theological foundation that will be useful for shaping the undergirding principles and evaluating current leadership theories and practices We need to view leadership from the vantage point of God In *Rooted Leadership* John E Johnson explores how Christian theology provides an overarching leadership framework and applies that theory to leadership practices Spiritual reflection guided by scripture points us to the very center of leadership God and the purpose of leadership that we might display his glory All the best forms of leading take their cues from who God is his purposes and his ways of working with people that he has progressively revealed Building on three decades of research study and experience as a global leader Johnson surveys the landscape of contemporary leadership theory unpacks the assumptions and beliefs that underly current trends and responds by offering a robust approach to leadership founded on the character work and words of God

Healthy Leadership for Thriving Organizations Justin A. Irving, 2023-12-19 Outreach 2025 Resource of the Year Leadership The devastating effects of toxic work environments are top news Everyone seems to understand that healthy organizations nurture flourishing individuals and societies flourishing that Jesus desires for all of us How can Christian business and ministry leaders create a positive organizational culture and identity Justin Irving has spent twenty years studying teaching and reflecting on organizational leadership Drawing wisdom from the Bible contemporary leadership theory and the insights of over two hundred executive leaders Irving provides a theological framework that makes human flourishing the driving motivation for leading organizations well He helps readers invest in their own growth to become leaders who motivate inspire and nurture But he broadens the view to help readers see how different levels of leadership the dynamics and interdependence of teams and of the whole organization work together He then offers practical insights on building teams culture and effective communication and on navigating the storms of crisis and change

Modern Metaphors of Christian Leadership Joshua D. Henson, 2020-01-11 This book explores contemporary metaphors of leadership from a biblical or church historical perspective It seeks to understand the cultural social and organizational

metaphors from the Bible and the implications for contemporary organizations Addressing issues such as communication mentorship administration motivation change management education and coaching the authors explore concepts related to both for profit and not for profit organizations This book will be a valuable addition to the leadership literature in showing how biblical leadership principles can be used in contemporary organizations **Leaders between Role Model and Idol** Volker Kessler, Angelika Marsch, Hans-Georg Wüsch, The guiding question for this book is Should leaders become role models or idols or both or neither The theologian Dietrich Bonhoeffer had a clear opinion on this If the leader tries to become the idol the led are looking for something the led always hope from their leader then the image of the leader shifts to one of a misleader Radio message 1 Feb 1933 This book presents interesting case studies from Africa America Europe spanning various disciplines and time periods It does not provide quick fix approaches but invites reflective practitioners and scholars alike to dig deeper It grew out of an inspiring leadership conference held in Budapest September 2024 *The Ultimate Donor* Jack Anderson, 2023-12-11 Using heart transplantation as a metaphor The Ultimate Donor illustrates what God has done for humanity through the death of Jesus The paths of becoming a follower of Christ and a heart transplant recipient are similar As with heart transplant recipients followers of Christ experience times of diagnosis knowledge of their sick heart transplantation replacing their sick heart with the heart of Christ and living the post transplant life the disciplined life with their new heart Every heart transplant demands the death of a donor Fortunately there is an Ultimate Donor *Missing Voices* John E. Johnson, 2019-03-31 People are desperate for leaders who are credible those who possess a moral center and exhibit sound leadership skills Given our global realities we need strategic leaders who possess cultural intelligence and theological discernment The aim of this book is to shape such leaders Each chapter combines careful research with contributions from leaders around the world These voices bring much needed insight to leadership issues when translated and applied in different settings especially the many urban multi cultural contexts that exist today Present and emerging leaders no matter the culture or field will find this book invaluable in sustaining their call to godly leadership
