Library of Congress Catalogs Library of Congress, 1960 *Library of Congress Catalog* Library of Congress, 1955 A cumulative list of works represented by Library of Congress printed cards *Economic Policies and Practices* United States. Congress. Joint Economic Committee, 1963 **France's New Deal** Philip Nord, 2012-08-26 France's New Deal is an in depth and important look at the remaking of the French state after World War II a time when the nation was endowed with brand new institutions for managing its economy and culture Yet as Philip Nord reveals the significant process of state rebuilding did not begin at the Liberation Rather it got started earlier in the waning years of the Third Republic and under the Vichy regime Tracking the nation's evolution from the 1930s through the postwar years Nord describes how a variety of political actors socialists Christian democrats technocrats and Gaullists had a hand in the construction of modern France Nord examines the French development of economic planning and a cradle to grave social security system and he explores the nationalization of radio the creation of a national cinema and the funding of regional theaters Nord shows that many of the policymakers of the Liberation era had also served under the Vichy regime and that a number of postwar institutions and policies were actually holdovers from the Vichy era minus the authoritarianism and racism of those years From this perspective the French state after the war was neither entirely new nor purely social democratic in inspiration The state's complex political pedigree appealed to a range of constituencies and made possible the building of a wide base of support that remained in place for decades to come A nuanced perspective on the French state's postwar origins France's New Deal chronicles how one modern nation came into being **Private Trade Barriers and the Atlantic Community** United States. Congress. Joint Economic Committee, 1964 *The Organization and Retrieval of Economic Knowledge* Elliot Perlman, 2019-06-10 This book is an outcome of the conference on The Organization and Retrieval of Economic Knowledge held in Kiel West Germany It focuses on the technology of the library industry and its uses for economic research and the economics of the economics library industry and its implication *Accessions List* United States. have become global politics Rather than survey a large array of issues and theories Spruyt provides students with particular tools of the trade and with different perspectives to understand given empirical puzzles Each section of the book discusses key theories which may be useful in understanding the issues in question and then applies them to empirical cases in order to demonstrate how theory relates to practice Case studies allow for both an historical and comparative approach
