Die fünf Ströme des Erzählens Michael Neumann, 2013-04-30 Geschichten zu hören und zu erzählen ist ein Urbedürfnis der Menschen nicht weit hinter Trinken Essen und Schlafen Warum das so ist hat die Anthropologen bislang wenig interessiert Doch nicht nur das Erzählen als das wohl elementarste Format der Verarbeitung von Wahrnehmungen Bedürfnissen und Erfahrungen ist universal Quer durch alle Kulturen findet sich eine Fülle bereinstimmender Motive Plots und Genres Warum ist das so Der Erfolg einer Geschichte bemisst sich vor Erfindung der Schrift schlicht danach ob sie weitererzählt wurde Weitererzählt wurde was den größten Anklang bei den Zuhörern fand Ähnliches geschieht jetzt wieder in den massenmedial vermittelten Narrationen der modernen Populärkultur Zu suchen ist also nach relevanten Dispositionen die allen Menschen gemeinsam sind Dazu werden zunächst mit den Mitteln der Literaturwissenschaft die universal beobachteten Elemente genauer beschrieben und auf ihre Zusammenhänge hin untersucht Dies führt zur Identifizierung von fünf universalen Strömen des Erzählens Diese werden im Dialog mit anthropologisch einschlägigen Disziplinen wie Biologie und Psychologie auf universale menschliche Dispositionen bezogen

Die verriegelte Tür hinter dem Paradies. Ein Roman frei nach Heinrich von Kleist Karis Ziegler, 2019-02-26 Doch das Paradies ist verriegelt da steht der Engel mit flammendem Schwert und verwehrt uns die Rückkehr Wenn nun aber einer sich aufmachte nachzusehen ob sich nicht doch noch irgendwo eine Hintertür fände Johannes Reiser ist einer der dieses Gedankenspiel Heinrich von Kleists unwissentlich mit seinem ganzen Lebenslauf in die Tat umsetzt Aufgeweckt und wissensdurstig wächst er Anfang des letzten Jahrhunderts in römischen Verhältnissen auf In seiner

Clique gleichaltriger Großstadtkassenkinder macht er erste Erfahrungen mit Freundschaft Rivalität und Liebe mit Geltungsdrang und Ehrgeiz mit Schuld und Reue Dank seiner leichten Auffassungsgabe und mithilfe fremder Führung eröffnet sich ihm die Chance auf gesellschaftlichen Aufstieg und die Aussicht seinen Kindertraum von Abenteuer und Neugier auf Welt und Menschen leben zu können Dann aber ist der Schrecken über die Erfahrungen die mit dem ersten großen Krieg über ihn hereinbrechen die naive Entdeckerlust als treibende Kraft seines Handelns ab Er wird zum Ahnenforscher der besonderen Art und nimmt uns mit auf eine weite Reise durch den größten Teil eines uns selbst noch in den Knochen steckenden Jahrhunderts durch ferne Kontinente auf der Suche nach den Wurzeln unserer Spezies und ihrer verstörenden Abgründe nicht zuletzt aber durch ein besonderes Leben das bestimmt ist von der Sehnsucht nach Verstehen nach Frieden und der Kraft der Liebe

Women, Literature and Development in Africa Anthonia C. Kalu, 2019-12-09 This book is a powerful exploration of the role of women in the evolution of African thinking and narratives on development from the precolonial period right through to the modern day Whilst the book identifies women's oppression and marginalization as significant challenges to contemporary Africa's advancement it also explores how new written narratives draw on traditional African knowledge systems to bring deep rooted and sometimes radical approaches to progress The book asserts that Africans must tell their own stories expressed through the complex meanings and nuances of African languages and often conveyed through oral traditions and storytelling in which women play an important role The book's close examination of language and meaning in the African narrative tradition advances the illumination and elevation of African storytelling as part of a viable and valid knowledge base in its own right rather than as an extension of European paradigms and methods Anthonia C Kalu's new edition of this important book fully revised throughout will also include fresh

analysis of the role of digital media education and religion in African narratives At a time when the prominence and participation of African women in development and sociopolitical debates is growing this book's exploration of their lived experiences and narrative contribution will be of interest to students of African literature gender studies development history and sociology Morality Truly Christian, Truly African Paulinus Ikechukwu Odozor C.S.Sp.,2014-11-15 Given the largely Eurocentric nature of moral theology in the history of the Roman Catholic Church what will it take to invest the theological community in the history and moral challenges of the Church in other parts of the world especially Africa What is to be gained for the whole Church when this happens in a deep and lasting way In this timely and important study Paulinus Ikechukwu Odozor brings greater theological clarity to the issue of the relationship between Christianity and African tradition in the area of ethical foundations He also provides a constructive example of what fundamental moral theology done from an African and Christian especially Catholic moral theological point of view could look like Following a brief history of the development of African Christian theology Odozor examines responses of African theologians to African tradition and Christian responses to the reality of non Christian religions In a context where the African religious experience and heritage are powerful sources of meaning and identity Christian evangelization raises questions both about the African primal religions and about Christianity itself and its claims Odozor takes up the subject of moral reasoning in an African Christian theological ethics and concludes with case studies that show how the African Church has tried to inculturate moral discourse on a religiously pluralistic continent and relate the healing gospel message to African situations Students and scholars of moral theology and ethics and church leaders will profit from the issues raised in Morality Truly Christian Truly African **A Matter of Style** Mark Eckersley,2015-01-23 A Matter of Style is a comprehensive guide to Theatre styles throughout the ages and through the lens of different cultures It begins with Australian indigenous theatre and will progress to modern theatre This publication includes Topic 1 The Origins of Drama and Theatre Topic 2 African Drama Each part includes an introduction background information and lesson plans to teach a 60 min lesson to upper secondary high school and undergraduate university students *African Mythology, A to Z* Patricia Ann Lynch,Jeremy Roberts,2010 The African continent is home to a fascinating and strong tradition of myth due in part to the long history of human habitation in Africa the diversity of its geography flora and fauna and the variety of its cultural beliefs African Mythology A to Z is a readable reference to the deities places events animals beliefs and other subjects that appear in the myths of various African peoples For the first time this edition features full color photographs and illustrations Coverage includes **Foundations of Modern Cosmology** John F. Hawley,Katherine A. Holcomb,2005-07-07 Recent discoveries in astronomy have revolutionized the field of cosmology While many long standing questions in cosmology have now been answered the new data pose new mysteries such as the nature of the dark energy that dominates the universe This second edition provides an accessible and thorough text on the physics of cosmology and a lively account of the modern concordance model of the universe from the big

bang to a distant future dominated by dark energy

Aliens and Man Jerome A. Kroth, 2010 When it comes to extraterrestrials UFOs crop circles and ancient astronaut literature most intelligent readers are repulsed by New Age hype turned off by Erik Van Daniken flustered by blatant pseudo science and deeply chagrined at how even the History Channel got dragged into the tabloid and sensational Yet many intelligent open minded readers harbor secret interests in the Great Pyramid and how it was built in mythic tales of sky gods coming and going from Ezekiel to the Rig Veda They are awed by the intricate fractals in crop circles and they more than take notice when a NASA astronaut says he was trailed in space by UFOs That questioning readership however swims in a vast sea of agnosticism curious but not convinced And there just aren't any books for them None they can trust None that reaches them None that transcends tabloid fantasies to authentically treat issues with enough dispassion and scholarly erudition not to insult their intelligence Here Dr Kroth gives the run down on a wide range of evidence and ponders how reliable any of it may be Readers are left with all the elements to form their own equation

The Oxford Companion to World Mythology David Leeming, 2005-11-17 Cave paintings at Lascaux France and Altamira Spain fraught with expression thousands of years later point to an early human desire to form a cultural identity In the Oxford Companion to World Mythology David Leeming explores the role of mythology or myth logic in history and determines that the dreams of specific cultures add up to a larger collective story of humanity Stopping short of attempting to be all inclusive this fascinating volume will nonetheless be comprehensive opening with an introduction exploring the nature and dimensions of myth and proposing a definition as a universal language Briefly dipping into the ways our understanding of myth has changed from Aristotle and Plato to modern scholars such as Joseph Campbell the introduction loosely places the concept in its present context and precedes articles on influential mythologists and mythological approaches that appear later in the Companion The main body of Leeming's work consists of A-Z entries covering all aspects of mythology including substantial essays on the world's major mythological traditions Greek Native American Indian Japanese Sumerian Egyptian mythological types and motifs Descent to the Underworld the Hero the Trickster Creation the Quest mythological figures Odysseus Zeus Osiris Spider Woman and Inanna as well as numerous interrelated subjects such as fairy tales and legends The Companion

also locates myth in our lives today relating it to language patterns psychology religion politics art and gender attitudes Many of the better known and more significant myths are vividly retold in this volume that will be illustrated with maps more than 70 black and white images and eight pages of color highlighting the central role art has often played in the transmission and perpetuation of myth Following the entries a rich section of appendices will include family trees of the major pantheons equivalency charts for the gods of Greece and Rome Babylon and Sumer as well as other traditions an extensive bibliography and an index
