Language and Identity in Multilingual Mediterranean Settings Piera Molinelli, 2017-08-07 This book explores the linguistic expression of identity intended as the social positioning of self and others by focusing mostly on a scenario of prolonged language contact namely the ancient Mediterranean area The volume includes studies on language contact and on identity strategies developed at different levels of analysis from phonetics to pragmatics in among others Latin Greek Coptic Syriac Cypriot Arabic Medieval Sardinian Intonational Grammar in Ibero-Romance Meghan E. Armstrong, Nicholas Henriksen, Maria del Mar Vanrell, 2016-03-31 Intonational Grammar in Ibero Romance Approaches across linguistic subfields is a volume of empirical research papers incorporating recent theoretical methodological and interdisciplinary advances in the field of intonation as they relate to the Ibero Romance languages The volume brings together leading experts in Catalan Portuguese and Spanish as well as in the intonation of Spanish in contact situations The common thread is that each paper examines a specific topic related to the intonation of at least one Ibero Romance language framing the analysis in an experimental setting The novel findings of each chapter hinge on critical connections that are made between the study of intonation and its related fields of linguistic inquiry including syntax pragmatics sociophonetics language acquisition and special populations In this sense the volume expands the traditional scope of Ibero Romance intonation including in it work on signed languages LSC individuals with autism spectrum disorder and individuals with Williams Syndrome This volume establishes the precedent for researchers and advanced students who wish to explore the complexities of Ibero Romance intonation It also serves as a showcase of the most up to date methodologies in intonational research *Discourse and Pragmatic Markers from Latin to the Romance Languages* Chiara Ghezzi, Piera Molinelli, 2014-07-31 This book examines the historical development of discourse and pragmatic markers across the Romance languages These markers serve to indicate the organization of the discourse the speaker's relationship with the interlocutor and the speaker's stance with regard to the information expressed Their relevance is in assisting interpretation despite the fact that they have little or no propositional content In this book distinguished scholars from different theoretical backgrounds analyse the different classes of discourse and pragmatic markers found in Latin and the Romance languages and explore both their diachronic development and their synchronic properties Following an introduction and overview of the development of these markers the book is divided into two parts the first part investigates pragmatic markers developed from verbs such as Latin *quaeso* Romanian *ma rog* and Spanish *o sea* the second looks at adverbs as discourse markers such as French *d j* and Italian *gi* Romanian *atunci* and Portuguese *ali s* Chapters address a variety of theoretical issues such as the cyclic nature of functional developments the nature of grammaticalization and pragmaticalization semantic change and the emergence of new pragmatic values The arguments presented also have consequences for any analysis of the interfaces between grammar discourse and interaction Semantic Issues in Romance Syntax Esthela Treviño, José Lema, 1999-05-15 All of the articles in this volume focus on the

interaction of form and meaning Most of them are developed under the principal thesis of the Minimalist Program These works show that the theoretical linguistic trend is to discover semantic aspects which are assumed to have visible syntactic repercussions through morphosyntactic and morphosemantic features 2014 Top Ten Gay Romance J.M.

strike out on my own Build a new life Find a place where I wouldn't always been living in my brother's shadow Yet somehow I've stepped directly into the middle of a war I want nothing to do with But I can't ignore the blood being spilt Can't turn a blind eye to someone in need Even when that someone is one of the most dangerous men in Chicago A man whose green eyes I could get lost in A man who wants my brother dead A man who will kill me when he finds out who I am Capturing Greed is the seventeenth book in The Deadliest Sin Series about organized crime in Chicago This series is best read in order as the stories are chronological and each sin builds on the events of the previous one From Latin to Romance Adam

Ledgeway, 2012-05-18 This book examines the grammatical changes that took place in the transition from Latin to the Romance languages The emerging languages underwent changes in three fundamental areas involving the noun phrase verb phrase and the sentence The impact of the changes can be seen in the reduction of the Latin case system the appearance of auxiliary verb structures to mark such categories tense mood and voice and a shift towards greater rigidification of word order The author considers how far these changes are interrelated and compares their various manifestations and pace of change across the different standard and non standard varieties of Romance He describes the historical background to the emergence of the Romance varieties and their Latin ancestry considering in detail the richly documented diachronic variation exhibited by the Romance family Adam Ledgeway reviews the accounts and explanations that have been proposed within competing theoretical frameworks and considers how far traditional ideas should be reinterpreted in light of recent theoretical developments His wide ranging account shows that the transition from Latin to Romance is not only of great intrinsic interest but both provides a means of challenging linguistic orthodoxies and presents opportunities to shape new perspectives on language change structure and variation Marked by the Brooding Mountain Man: A Short and Steamy
