Twenty-First Century Perspectives on the Scholarship of AV Dicey Catherine Marshall, Céline Roynier, 2024-12-12 This book reassesses AV Dicey's legacy in political and legal thought through the reflections of leading scholars who consider his importance not only in today's British constitutional and legal culture but also in other foreign constitutional cultures Every student in law and in politics every law faculty and most legal practitioners in the world are aware of who Albert Venn Dicey 1835-1922 was and what he wrote Yet this fame does not mean that Dicey's legacy is not controversial and debated in the present world This book considers why Dicey's late Victorian constitutional and political thinking is still alive In spite of all the transformations that have taken place in public law in the UK in the last hundred years the book argues that Dicey managed to grasp and to crystallise something of the British political identity and culture Hence the long lasting fire power of his constitutional and political thinking The book also considers that there is something even more prescient in Dicey's writings for the UK but also for countries that have adopted his understanding of the rule of law and or of parliamentary government Dicey identified one of the most fundamental political issues at stake the nature of the relationship between public law and democracy The book looks closely at the alliance between public law and democratic spirit This alliance needs to be reassessed from a legal historical and comparative perspective This edited collection gathering authors from different countries from various legal systems and from diverse backgrounds tackles this task **ETA Interchange**, 1978 *ETA Interchange* United States. Enterprise Partnerships Great Britain: Parliament: House of Commons: Business, Innovation and Skills Committee, 2010-12-09 This report indicates broad support for the creation of Local Enterprise Partnerships as a way of addressing local growth In particular the potential of LEPs to offer a greater focus on local economic needs and build on the affinity between business local government and other partners at a local level is recognised Whilst it is right that LEPs should compete at certain levels it is equally important for them to collaborate particularly with the Regional Development Agencies where it makes economic sense Local Enterprise Partnerships are being introduced quickly and at a time of greatly constrained public funding There is concern that in the short term LEPs will need know how and powers and in some cases financial resources to make a positive difference Government will need to be willing to devolve power to LEPs and in certain cases be willing to support LEPs at inception If LEPs are to be a success the Department's transition team will need to focus in three areas retain RDA know how realising the full potential of RDA assets and leveraging potential EU funding
