Dear Mr. Gonzalez:

November 5, 2023

I'm incredibly passionate about exploring the vast landscape of cyber security and its critical importance in our interconnected world as your next cyber security officer. Early in my life, my family's small business fell victim to a ruthless online phishing attack, which would've led to its ruin had it not been for a vigilant cyber security team that mitigated the incident. This event sprouted my aspirations into the cyber security field, where I have now worked for over five years. I harbor a profound desire to dedicate my skills to an organization as renowned and influential as Red Hat, securing its digital space from scathing cyber threats.

I harnessed my vulnerability assessment and penetration testing prowess to reinforce Credit Suisse's digital infrastructure. By integrating robust testing tools like Nessus and Metasploit, we detected and rectified system vulnerabilities 21% faster.

While working with Republic Wireless, I leveraged an amalgamation of firewall technologies, intrusion detection systems, and security incident & event M=management tools to bolster our network security. The concerted efforts of our team led to a remarkable 13% decrease in the yearly count of network intrusions, helping us go beyond industry benchmarks.

A stint at BlocLedger saw me implement advanced encryption algorithms using Cryptool, thereby fortifying sensitive data transactions across highly distributed networks. This resulted in a significant 27% decline in data breaches, largely protecting us and our clients from substantial financial losses.

In applying to Red Hat, I'm not only eager to raise the bar for cyber security standards but also thrilled at the prospect of securing a pivotal enterprise that powers the computational needs of so many organizations on a global scale. Thank you for considering my application. I await the chance to demonstrate how my cybersecurity expertise can fortify Red Hat's digital landscape.

Sincerely,

Noor Abdullah

Teacher Agency and Policy Response in English Language Teaching Patrick C. L. Ng, Esther F. Boucher-Yip, 2016-08-05

The role of English in the global arena has prompted official language in education policy makers to adopt language education policies to enable its citizens to be proficient in English and to access knowledge. Local educational contexts in different countries have implemented English education in their own ways with different pedagogical goals, motivations, features, and pedagogies. While much of the research cited in English language planning policy has focused on macro level language policy and planning, there is an increasing interest in micro planning in particular teacher agency in policy response. Individual teacher agency is a multifaceted amalgam not only of teachers' individual histories, professional training, personal values, and instructional beliefs, but also of how these interact with local interpretations and appropriations of policy. *Teacher Agency and Policy Response in English Language Teaching* examines the agency of the teacher in negotiating educational reforms and policy changes at the local and national levels. Chapters in the book include English language teaching in China, teacher agency in response to curricular innovations, incorporating academic skills into EFL curriculum, teacher agency in response to global mobility challenge, Teacher agency: the native/nonnative dichotomy and English Classes in English in Japanese high schools, Teacher designed high stakes English language testing washback and impact. This book will appeal to researchers across all sectors of education in particular key stakeholders in curriculum and language planning. Those interested in the latest development of English language teaching will also find this book a valuable resource.

Writing Your Journal Article in Twelve Weeks, Second Edition Wendy Laura Belcher, 2019-06-07

Wow! No one ever told me this. Wendy Laura Belcher has heard this countless times throughout her years of teaching and advising academics on how to write journal articles. Scholars know they must publish, but few have been told how to do so. So Belcher made it her mission to demystify the writing process. The result was *Writing Your Journal Article in Twelve Weeks*, which takes this overwhelming task and breaks it into small, manageable steps. For the past decade, this guide has been the go-to source for those creating articles for peer-reviewed journals. It has enabled thousands to overcome their anxieties and produce the publications that are essential to succeeding in their fields. With this new edition, Belcher expands her advice to reach beginning scholars in even more disciplines. She builds on feedback from professors and graduate students who have successfully used the workbook to complete their articles. A new chapter addresses scholars who are writing from scratch. This edition also includes more targeted exercises and checklists as well as the latest research on productivity and scholarly writing. *Writing Your Journal Article in Twelve Weeks* is the only reference to combine expert guidance with a step-by-step workbook. Each week, readers learn a feature of strong articles and work on revising theirs accordingly. Every day is mapped out, taking the guesswork and worry out of writing. There are tasks, templates, and reminders. At the end of twelve weeks, graduate students, recent PhDs, postdoctoral fellows, adjunct instructors, junior faculty, and international faculty will feel
