## **Optometric Practice Management Optometric Practice Management:**

**Optometric Practice Management** Irving Bennett, OD, FAAO, 2002-09-27 While the business aspect of an optometrist's practice may come second to patient care, optometrists today are faced with greater competition for new patients and income. This updated guide shows readers how to work smarter through effective practice management to offset reduced earnings due to fixed reimbursements of managed care and competition from 1,800 contact lens companies and chains selling discount frames and lenses. Drawing on over 40 years of experience, the author presents practical strategies for addressing the problems of day-to-day practice and explains how to develop business and marketing plans without detracting from the optometrist's professional image. This edition features an increased focus on how to work with partners, including how to exit gracefully from a partnership, how to start a part-time practice, and how to be creative in practice. Authored by an expert in the field of practice management and optometry, for the most effective realistic advice and guidance. Concise, readable text synthesizes the author's 40-plus years of expertise in optometric practice. Necessary business and marketing skills are presented in a way that is compatible with the optometrist's professional image. Tips and tools are provided on how to approach the client as both a consumer and a patient. Helpful information for students or optometrists who own or are planning to own their own practice. Completely rewritten and updated. 4 new chapters cover topics such as practice locations, part-time practicing, managed care, management of unmet vision needs, and the office of the future. An increased focus on how to work with partners, including how to exit gracefully from a partnership. A discussion of how to start a part-time practice addresses real-world considerations and practical strategies. Hot new topics such as co-management of patients, gender and ethnicity, senior patient concerns, and discounting.

**Practice Management in Optometry** Neil Gailmard, 2021-11-29 Practice Management in Optometry, Second Edition, is a refresh of the original book published in 2017. Subchapters that were outdated or redundant have been removed. The second edition includes a hardcover version along with paperback and e-book. Based on the long-running e-newsletter series Optometric Management Tip of the Week, the book is filled with practical and innovative ideas geared toward increasing productivity and profitability. Written by an optometrist who actually founded, owned, managed, and treated patients in private practice for over 30 years, this book rings true to other ODs in the trenches. Author Neil Gailmard, OD, MBA, FAAO, has a knack for simplifying and communicating concepts so they make sense. In addition to his main career as a clinical optometrist, Dr. Gailmard served as a professor at Illinois College of Optometry, a lecturer at major eye care conferences, a writer in professional publications, and a consultant to optometrists and the optical industry. If you own an optometric practice or hope to someday, this book will lead you up the pathway to success. The paperback edition is 741 pages, and the hardcover version is 548 pages because the paper sizes are different. The book is organized into 20 chapters: Starting and Organizing a Practice, Office Design, Instrumentation, Strategic Planning, Organizational Behavior, Human Resource Management, Office Managers, Staff Training and Meetings, Customer Service, Practice Marketing, Recall
