Killer Cults Stephen Singular, 2021-06-29 What's scarier than a murderer? Someone with the charisma to compel others to kill for them or to kill themselves. Meet these cult leaders and get an inside look at their beliefs and how they controlled others. Some cults led by leaders like Charlie Manson, Jim Jones and David Koresh are notorious. But others are less well known such as Shoko Asahara and his doomsday cult Aum Shinrikyo who orchestrated the sarin gas attack on the Tokyo subway. Or Joseph Di Mambro and Luc Jouret who founded the Order of the Solar Temple, a doomsday cult that led to the death of 51 members by murder or suicide. Then there is Marshall Applewhite, leader of Heaven's Gate who along with 38 followers killed themselves in the belief that the Hale Bopp comet signaled the arrival of a spaceship that would transport them to a higher plane of existence. What makes cult leaders so compelling is their often unfathomable power over their adherents. Why do people kill others or themselves for a questionable set of beliefs? *Killer Cults* tells the stories behind both famous and unfamiliar cults and the people behind them. Across a series of profiles we learn the jaw-dropping truth behind some of the most mystifying and deadly cults and their leaders, all of whom led their followers down a dark, murderous path.

Agents of Discord Susan E. Darnell, 2017-12-02 It is widely acknowledged that the United States has always provided fertile ground for the growth of new religious movements and cults, but modern organized efforts to oppose and restrict them have been less well understood. In *Agents of Discord*, Anson Shupe and Susan E. Darnell offer a groundbreaking analysis of the operations and motives of these oppositional groups which they generally group under the umbrella term of the anticult movement. Historically, there have always been parallel groups opposed to certain religious movements, whether these be anti-Quaker, anti-Roman Catholic or anti-Mormon. The authors establish the cultural context of such movements in the nineteenth century. They point out the link between modern anticult movements and nativist movements in American history. Turning to the postwar era, the authors discuss the rise of anticult movements and focus specifically on one of the most prominent, the Cult Awareness Network (CAN). CAN was a two-tiered organization. Partly composed of volunteers, donors and families affected by cult movements, it also included what the authors call an inner sanctum of behavioral science professionals, attorneys and deprogrammers. Using never-before-reported data on CAN's activities, the authors cite an extensive history of financial impropriety that finally led to the organization's bankruptcy. They offer a pointed critique informed by current scholarship of the brainwashing model of mental enslavement presented by the anticult movement that has been a central assumption undergirding its activities. At the same time, they show how increasing professionalization has gradually begun a shift of such movements to a therapeutic model of exit counseling that rejects the crude methods of earlier intervention strategies. In their analysis of the anticult movement nationally and internationally, Shupe and Darnell merge sociological concepts and social
