Harris,Dwight Vick,2023-06-21 Tenure at a Crossroads Again goes beyond the explication of tenure to explore the contemporary challenges facing academia at the K 12 and higher education levels This edited volume is unique in the sense that it grapples issues from multiple viewpoints that of the university college administrator and professor to the K 12 educator The book examines increased expectations and how existing policies have spilled over into institutions of higher learning once high school graduates enter this domain Students educational expectations resonate with college administrators and policy makers forcing institutions to adapt to these needs This moves professors to dumb down the curricula and teaching to avoid negative evaluations and protect themselves from unwarranted retaliation This confluence of factors reverberates throughout the educational system producing unintended effects that have collectively led to an alliance between the administration and students in higher education much like those experienced by our K 12 colleagues yet now questions the rationale for tenure to re examine dilemmas that have long dogged higher education The most recent solution the corporatization of institutions but to the detriment of a quality education We offer practical strategies to mitigate this unilateral approach while incorporating innovative mechanisms for the system s survival
