Origin The Food Of Ben Shewry:

Origin Ben Shewry, 2016-04-01 Ben Shewry from the multi award winning Melbourne restaurant Attica is one of Australia's most significant chefs. He draws inspiration for his exquisite dishes from his surroundings and pivotal moments and experiences in his life. Known for his foraging, Ben uses what the earth provides without exploiting its precious resources and the artisan producers he champions are an important part of his food. The detailed recipes in this book include Ben's famous snow crab and potato cooked in the earth it was grown. Origin is Ben's unique and extraordinary account of food, memory, time and place. *Chef's Library* Jenny Linford, 2016-10-11 All chefs love and cherish cookbooks and increasingly cookbooks have become treasured manuals of the trade as well as beautiful art objects. The Chef's Library is the world's first attempt to bring together in a single volume a comprehensive collection of cookbooks that are highly rated and actually used by more than 70 renowned chefs around the world. Readers will discover the books that have galvanized acclaimed and brilliant

culinary talents such as Daniel Humm, Jamie Oliver, Sean Brock, Michael Anthony, Tom Kerridge, Suzanne Goin, Tom Colicchio and many others. Also featured are influential restaurant cookbooks, essential books on global cuisines and specialist culinary subjects and historic favorites that have stood the test of time. Part reference, part culinary exploration, this book is a must have for any cookbook collector or passionate foodie. The Tastes and Politics of Inter-Cultural Food in Australia Sukhmani

Khorana, 2018-03-13 In the 21st century, an accelerated pace of global movements of people, goods, capital, technology and ideas has led to ambivalence regarding cultural identity for individuals as well as collectives like neighbourhoods and cities. While the preparation, availability and consumption of diverse foods have become symbolic of the very openness of a place, there are concerns that this is only reflective of a superficial and consumerist form of middle class cosmopolitanism. Using food-oriented case studies centred on Australian cities and media, *Bonding Over Food* argues for a processual understanding of cosmopolitanism. Such an approach helps us understand various kinds of social bonds formed over food as convivial practices that are potentially ethical and/or reflexive as opposed to being driven by othering discourses. **Lonely Planet**
