Gaming Democracy Adrienne L. Massanari,2024-10-15 How play and gaming culture have mainstreamed far right ideology through social media platforms From Gamergate to the ongoing Big Lie the far right has gone mainstream In Gaming Democracy Adrienne Massanari tracks the flames of toxicity found in the far right and alt right movements as they increasingly take up oxygen in American and global society In this pathbreaking contribution to the fields of internet studies game studies and gender studies Massanari

argues that Silicon Valley's emphasis on meritocracy and free speech absolutism has driven this rightward slide. These ideologies have been coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to game the ecology of platforms, algorithms, and attention economies. While populist movements are not new phenomena, such as QAnon, parental rights activism, and COVID denialism are uniquely of the internet, with supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent. Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of community within these leaderless groups and to obfuscate their intentions. Using the lens of play and game studies, as well as the concept of metagaming, *Gaming Democracy* is a novel contribution to our understanding of online platforms and far right political activism.

Every Last Fish Rose George, 2025-10-23 Cold blooded, slippery, wet, and strange, fish can be hard to think of as fellow animals and easier to consider as food. But what do we know of these creatures on our plates, and what do we know of how they got there? In *Every Last Fish*, Rose George takes us inside the vast legal industries that support our appetite for fish fingers and salmon sandwiches, and the equally colossal illegal fishing trade whose practices and standards are unmonitored and often dangerous. It introduces us to the men, and it is mostly men who fish, the women, and it is mostly women who process the flesh, and strive to keep fishing communities afloat. It takes us from Alaska to Senegal, via Scotland, Norway, and Massachusetts, and from the nets on the surface to the murky depths of the sea bed. It will transform the way you look at fish and change your understanding of what lies behind the inscrutable eye that looks back at you.
