Public Scholarship in Communication Studies Thomas J. Billard, Silvio Waisbord, 2024-03-26 Prometheus brought the gift of enlightenment to humanity and suffered for his benevolence This collection takes on scholars' Promethean view of themselves as selfless bringers of light and instead offers a new vision of public scholarship as service to society Thomas J. Billard and Silvio Waisbord curate essays from a wide range of specialties within the study of communication Aimed at scholars and students alike the contributors use approaches from critical meditations to case studies to how-to guides as they explore the possibilities of seeing shared knowledge not as a gift to be granted but as an imperative urging readers to address the problems of the world Throughout the volume the works show that a pivot to ideas of scholarship as public service is already underway in corners of communication studies across the country Visionary and provocative *Public Scholarship in Communication Studies* proposes a needed reconsideration of knowledge and a roadmap to its integration with community Contributors Elaine Almeida Becca Beets Thomas J. Painterly Enlightenment Thomas DaCosta Kaufmann, 2005 Kaufmann situates Maubertsch as a fresco painter at a time of transition to easel painting a colorist at a time when color was not fully appreciated by contemporary observers and an interpreter of religious themes at a time when secular subjects were becoming more popular Although he has been dismissed as an eccentric by previous scholars Kaufmann's analysis shows Maubertsch involved in the intellectual and aesthetic issues of his day

Making the Case Robert Leventhal, 2019-11-18 One hundred years before Freud's striking psychoanalytic case histories the narrative psychological case history emerged in the second half of the eighteenth century in Germany as an epistemic genre Gianna

Pomata that cut across the disciplines of medicine philosophy law psychology anthropology and literature It differed significantly from its predecessors in theology jurisprudence and medicine Rather than subsuming the individual under an established classification moral precept category or type the narrative psychological case history endeavored to articulate the individual in its very individuality thereby constructing a self in its irreducible singularity The presentation and analysis of several significant psychological case histories their theory and practice as well as the controversies surrounding their utility validity and function for an envisioned science of the soul constitutes the core of the book Close and distant F Moretti readings of key texts and figures in the discussion regarding empirical psychology psychologia empirica experiential psychology Erfahrungsseelenkunde and medical psychology medizinische Psychologie such as Christian Wolff J C Kr ger J C Bolton Ernst Nicolai J A Unzer J G Sulzer J G Herder Friedrich Schiller Jacob Friedrich Abel Marcus Herz Karl Philipp Moritz J C Reil Ernst Platner and Immanuel Kant provide the disciplinary historical scientific context within which this genre comes to the fore As the first systematic argument concerning the early history of this genre my thesis is that the psychological case history evolved as part of a pastoral apparatus of care concern guidance and direction for what it fashioned as the unique individual as the discursive medium in a process by which the soul became a self The narrative psychological case history was in fact a meta genre that transcended traditional boundaries of history and fiction medicine and philosophy psychology and anthropology and sought for the first time to explicitly link the experience history memory fantasy previous trauma or suffering of a unique individual to illness deviance aberration and crime In a word it demonstrated as Freud later said of his own case histories in Studies on Hysteria the intimate relation between the history of suffering and the symptoms of illness die innige Beziehung zwischen Leidensgeschichte und Krankheitssymptome This genre not only had a profound and far reaching effect on the evolution of German and European literature one thinks of the rich traditions of the Novella and the Fallgeschichte from Goethe B chner R L Stevenson Edgar Allen Poe and Chekhov to Kafka and beyond but in shaping modern literature the clinical sciences and even popular culture The book should therefore be of interest not merely to Germanists modern European cultural historians historians of science and literary historians but also those interested in the history of medicine and psychology the origins of psychoanalysis the history of anthropology cultural studies and more generally the history of ideas

 Maggie Taft,Robert Cozzolino,2018-10-24 For decades now the story of art in America has been dominated by New York It
 gets the majority of attention the stories of its schools and movements and masterpieces the stuff of pop culture legend
 Chicago on the other hand well people here just get on with the work of making art Now that art is getting its due Art in
 Chicago is a magisterial account of the long history of Chicago art from the rupture of the Great Fire in 1871 to the present
 Manierre Dawson Lszl Moholy Nagy and Ivan Albright to Chris Ware Anne Wilson and Theaster Gates The first single
 volume history of art and artists in Chicago the book in recognition of the complexity of the story it tells doesn't follow a
 single continuous trajectory Rather it presents an overlapping sequence of interrelated narratives that together tell a full and
 nuanced yet wholly accessible history of visual art in the city From the temptingly blank canvas left by the Fire we loop back
 to the 1830s and on up through the 1860s tracing the beginnings of the city's institutional and professional art world and
 community From there we travel in chronological order through the decades to the present Familiar developments such as
 the founding of the Art Institute the Armory Show and the arrival of the Bauhaus are given a fresh look while less well known
 aspects of the story like the contributions of African American artists dating back to the 1860s or the long history of activist
 art finally get suitable recognition The six chapters each written by an expert in the period brilliantly mix narrative and
 image weaving in oral histories from artists and critics reflecting on their work in the city and setting new movements and
 key works in historical context The final chapter comprised of interviews and conversations with contemporary artists brings
 the story up to the present offering a look at the vibrant art being created in the city now and addressing ongoing debates
 about what it means to identify as or resist identifying as a Chicago artist today The result is an unprecedentedly inclusive
 and rich tapestry one that reveals Chicago art in all its variety and vigor and one that will surprise and enlighten even the
 most dedicated fan of the city's artistic heritage Part of the Terra Foundation for American Art's year long Art Design
 Chicago initiative which will bring major arts events to venues throughout Chicago in 2018 Art in Chicago is a landmark
