Spotify World Series Update:

Spotify Teardown Maria Eriksson, Rasmus Fleischer, Anna Johansson, Pelle Snickars, Patrick Vonderau, 2019-02-12 An innovative investigation of the inner workings of Spotify that traces the transformation of audio files into streamed experience Spotify provides a streaming service that has been welcomed as disrupting the world of music Yet such disruption always comes at a price Spotify Teardown contests the tired claim that digital culture thrives on disruption Borrowing the notion of teardown from reverse engineering processes in this book a team of five researchers have playfully disassembled Spotify's product and the way it is commonly understood Spotify has been hailed as the solution to illicit downloading but it began as a partly illicit enterprise that grew out of the Swedish file sharing community Spotify was originally praised as an innovative digital platform but increasingly resembles a media company in need of regulation raising questions about the ways in which such cultural content as songs books and films are now typically made available online Spotify Teardown combines interviews participant observations and other analyses of Spotify's front end with experimental covert investigations of its back end The authors engaged in a series of interventions which include establishing a record label for research purposes intercepting network traffic with packet sniffers and web scraping corporate materials The authors innovative digital methods earned them a stern letter from Spotify accusing them of violating its terms of use the company later threatened their research funding Thus the book itself became an intervention into the ethics and legal frameworks of corporate behavior

Future Practices of Citizenship in Asia and the West Gregory Bracken, Paul Rabé, Nurul Azreen Azlan, 2025-10-01 Future Practices of Citizenship in Asia and the West investigates some of

the greatest challenges facing society in the twenty first century including the struggle for rights and recognition by indigenous peoples women migrants and the young as well as the dampening effects some government responses to COVID 19 have had on artistic freedom and citizen participation The ill effects of digitisation on citizenship however are tempered by some more positive approaches from grass roots activities Perhaps the most acute challenge facing the world today is climate change an issue that can be both positive and negative depending on how we respond to it All the papers in this book share a people centred approach based around Michel Foucault's Care of the Self *Billboard*, 2011-10-01 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends Podcasting in a Platform Age John L. Sullivan, 2024-01-25

Podcasting in a Platform Age explores the transition underway in podcasting by considering how the influx of legacy and new media interest in the medium is injecting professional and corporate logics into what had been largely an amateur media form Many of the most high profile podcasts today however are produced by highly skilled media professionals some of whom are employees of media corporations Legacy radio and new media platform giants like Google Apple Amazon and Spotify are also making big and expensive moves in the medium by acquiring content producers and hosting platforms This book focuses on three major aspects of this transformation formalization professionalization and monetization Through a close read of online and press discourse analysis of podcasts themselves participant observations at podcast trade shows and conventions and interviews with industry professionals and individual podcasters John Sullivan outlines how the efforts of industry players to transform podcasting into a profitable medium are beginning to challenge the very definition of podcasting itself

Media and Crime. Women's Fascination with True Crime, 2024-10-30 Seminar paper from the year 2022 in the subject Sociology Law and Delinquency grade 1.0 ECTS London University Faculty of Law course Criminology Crime and Criminal Justice language English abstract Aren't females themselves the archetypical victim in true crime stories So why would they enjoy listening watching or reading about the horrible things rapists and serial killers do to their targets With this paper I seek to shed light into that paradox I want to explain why true crime media is specifically popular amongst women So firstly I will give a quick introduction into the rising popularity of true crime media Secondly I will explore as well as explain the gender gap in true crime consumption with the aid of various social psychological sociological and criminological research and present a profile of the typical female true crime fan I will finish off with a summary Podcast Journalism David Dowling, 2024-03-19 Runner up 2025 Tankard Book Award Association for Education in Journalism and Mass Communication

Podcasting's stratospheric rise has inspired a new breed of audio reporting Offering immersive storytelling for a binge listening audience as well as reaching previously underserved communities podcasts have become journalism's most rapidly growing digital genre buoying a beleaguered news industry Yet many concerns have been raised about this new medium

such as the potential for disinformation the influence of sponsors on content the dominance of a few publishers and platforms and at times questionable adherence to journalistic principles David O Dowling critically examines how podcasting and its evolving conventions are transforming reporting and even reshaping journalism's core functions and identity He considers podcast reporting's most influential achievements as well as its most consequential ethical and journalistic shortcomings emphasizing the reciprocal influences between podcasting and traditional and digital journalism Podcasting both as a medium and a business has benefited from the blurring of boundaries separating news from entertainment editorial from advertising and neutrality from subjectivity The same qualities and forces that have allowed podcasting to bypass the limitations of traditional categories expand the space of social and political discourse and provide openings for marginalized voices have also permitted corporations to extend their reach and far right firebrands to increase their influence Equally attentive to the medium's strengths and flaws this is a vital book for all readers interested in how podcasting has changed journalism

Hastings Communications and Entertainment Law Journal (Comm/Ent), 2014 *Revolutionizing EFL Learning. Integrating Podcasts to Enhance Communicative, Intercultural, and Media Literacy Skills* Jessica Büscher, 2024-07-22 Master's Thesis from the year 2022 in the subject Didactics for the subject English Pedagogy Literature Studies grade 1.0 University of Paderborn language English abstract This paper explores how podcasts can revolutionize learning in the EFL English as a foreign language classroom Not only are podcasts easily accessible and transcend knowledge barriers but they also foster close knit communities and offer a variety of genres and formats Although increasingly popular with young adults their potential often remains untapped in schools This study aims to show how teachers can use podcasts effectively in the classroom to promote communicative intercultural and media literacy skills With concrete application examples and creative teaching concepts we want to give teachers the tools to integrate podcasts profitably into EFL lessons and thus make learning more exciting and interactive

Impact of FinTechs on the Banking Sector. Competitor or Partner for Traditional Banks? Alice Hofmann,2021-06-29 Bachelor Thesis from the year 2018 in the subject Business economics Banking Stock Exchanges Insurance Accounting grade 1.0 University of Applied Sciences Essen language English abstract This paper will analyse if traditional banks deal with the continuous digitization and new technology based competitors especially FinTechs as a threat or rather as a chance for their own business model Is it more likely that banks and FinTechs will link up as partners to benefit from mutual competitive advantages or will it degenerate into a battle for power and market share Furthermore why is it that small start ups can present such a threat to established banks that have been operating for years Innovative start ups revolutionized several business sectors There was Napster for the music industry Uber for the taxi industry and there are FinTechs for the financial sector FinTech is an abbreviation for Financial Technology The designation itself already gives an idea of what their business idea looks like Intelligent technologies and the continuously expanding digitization across all business sectors expands the customers needs and demands towards banks They want to take care of banking business as easily and convenient as they order goods via Amazon ask Google for the way or stream music and movies online via Spotify or Netflix FinTech has recognized that change in customer behaviour and started to build their business models based on these findings Those new innovative market entrants are present in every part of the value chain of a traditional bank offering alternative financial products and services on a purely online basis Traditional banks are therefore facing significant challenges and risks that are endangering their competitiveness
