causes the body to store fat permanently no matter how hard you exercise or how diligently you cut back on calories Dr Shemek calls this serious condition FATflammation and only when you decrease the inflammation of the fat cells can you achieve the weight loss and optimum health you've been chasing We need to forget about counting calories counting points fad diets no fat diets and spending countless hours at the gym There is a better and more satisfying way to lose the fat and maintain your desired weight If we want to fix our problems with fat Shemek writes we need to reduce the inflammation in our fat cells In *How to Fight FATflammation* Shemek reveals her revolutionary three week program that helps reboot your body chemistry by returning your body's fat cells back to their natural healthy state In the process she explains the critical importance of maintaining balance between good fats omega 3 and bad fats omega 6 and how a proper ratio of both will help boost your metabolism in short your body will burn fat simply by your eating the right kinds of fat She also helps you eliminate from your diet the dreaded FATflammation Four sugar refined grains high fructose corn syrup and artificial sweeteners Here's your chance to shrink your fat cells and get the body you always wanted
