The Pink Beagle Dr. Vikas Kumar Singh, How do you decide when to enter into a global business and whom to seek advice for the correct strategy What all factors will you consider when you enter any new market outside your home country or whose opinion will you seek in case you are new in the export import business Do you base your decision on the fancy website that has been created by some agency in a remote corner or will you base your decision on the number of likes the adviser is having on Youtube or social media Sadly few people start global trade without proper research and knowledge If this is the way you will find your navigation route for global business then I am sure it could be a hit or miss approach The reality is that we are living in one of the most dynamic environments that have ever been seen in history There are so many influencers on social media and advisors cum consultants in the marketplace that it becomes impossible for any small enterprise or entrepreneur that is starting a business to get genuine and real time information I believe that to enter into a global business your foundation has to be strong Not only the product has to stand out in the marketplace but your mind and vision have to be tuned to become a long term player with grit and determination One of the common mistakes that I have seen in my professional career is that people assume too many things about foreign markets The presumption starts with the fact that something that is going well in local markets also has the potential to be exported abroad However the reality is that one size fits all does not work in international markets Something that goes well in Nepal may not work at all in Kuwait It's all about understanding your avatar properly and making your strategy accordingly In my view to make a real impact in the global markets we need to encourage and empower the small exporters and entrepreneurs so that they develop enough courage and confidence to create a positive impact in international business We need to ensure that people engaged in global trade are empowered with the right knowledge and skills so that they can stand for something beyond themselves and guide others to lead and win the global marketplace This book is an attempt to uncover the various strategies and best practices that are needed to succeed in international trade Some companies brands come from nowhere and become a sensation in the global arena Some even become a part of the culture and adapt themselves to mix with the local markets Also the concept of globalization has completely changed the rules of international business But is the concept of globalization really universal Is it real or imaginary The truth is that the world of global business is dynamic and changing every moment wherein nothing is permanent Like a flowing river things are changing all along So the competitive advantage

that a firm has today becomes obsolete soon and later becomes its biggest liability in3 this ever changing environment This book will be useful for students exporters as well as practising managers as it has several learnings and incredible stories of individuals as well as brands that came along through challenging times Brands that boomed in World war 1 and 2 the period of the great depression and of course the modern internet age phase have been widely covered The book has amazing tales of innovation determination and entrepreneurship Written like a practical guide the book has a buffet of past research deft reasoning and analysis of the events that guided most of the global trade The learnings that you get from this unique book that has several published posts will definitely change your perspective on international trade and will help you evolve your strategies to enter the international business with more knowledge and avoid costly mistakes After all each cent counts in global business

Thakur,Ashok K. Dutt,Sudhir K. Thakur,George M. Pomeroy,2020-02-10 This book discusses urban planning and regional development practices in the twentieth century and ways in which they are currently being transformed It addresses questions such as What are the factors affecting planning dynamics at local regional national and global scales With the push to adopt a market paradigm in land development and infrastructure the relationship between resource management sustainable development and the role of governance has been transformed Centralized planning is giving way to privatization not only in the traditional regions but also in newly emerging regions of Asia Africa and Latin America Further attempts are being made to bring planning related decision making closer to the people who are most affected by it Presenting a collection of studies from scholars around the world and highlighting recent advances in the field the book is a valuable reference guide for those engaged in urban transformations whether as graduate students researchers practitioners or policymakers **The Millennial Mosaic** Reginald W. Bibby,Joel Thiessen,Monetta Bailey,2019-07-13 The bottom line Millennials are looking good There's a lot of consternation about the Millennial generation Canada's youngest adults born since the mid 1980s and now reaching their thirties But the speculation has not been accompanied by sound and comprehensive information until now Highly respected sociologist and veteran trend tracker Reginald W Bibby teams up with two Gen X colleagues Joel Thiessen and Monetta Bailey to provide an up to date reading on how Millennials see the world their values joys and concerns their views of family sexuality spirituality and other Canadians and their hopes and expectations as they look to the future What's more the authors compare Millennials with Gen Xers Boomers and Pre Boomers Their conclusion Canada's much criticized Millennials may well be a solid upgrade on previous generations speaking well for the country's future **Digital China: Selling to China Through Cross-Border E-Commerce** Ashley Dudarenok,2019-01-01 China's cross border e-commerce market was worth 8.8 trillion yuan transactions in 2018 with 25-34 year olds as the largest user segment making up 48% of China's highly educated CBEC consumers In early 2020 China also approved 24 more cross border e-commerce pilot cities and has introduced relaxed foreign exchange regulations in its free trade zones This is an area that China is clearly

prioritizing If you've ever thought about expanding your business into China but hesitated this is the book for you There are plenty of cross border e-commerce options available without having to set up a branch office or hire a large group of local staff It's a great solution for brands of all sizes Here's an excerpt to give you a taste China is a huge market with great potential It's unique sophisticated hyper competitive and it's not easy to succeed Despite the challenges international brands of all kinds are eager to get access to over 1.4 billion Chinese consumers If you've decided that it's time for your company to take its next big step and dive in the good news is that it's not necessary to set up shop in China to sell your products there E-commerce is a way of life in China and by the end of 2019 e-commerce sales are forecast by some to expand 27.3% reaching 1.935 trillion USD This represents 36.6% of total retail sales in the country Cross border e-commerce can blur geographical borders so we've created this mini book to help marketers better understand major online sales channels for cross border e-commerce in 2019 You'll find out about key players to watch and major e-commerce shopping festivals We'll dive into information that will empower you to take action and make wise decisions when it comes to your marketing budget Social E-commerce and We Commerce Whether it's traditional media opening their own online stores or e-commerce sites adding more editorial content and social features both sides are coming closer together in the form of social e-commerce It's happening everywhere but it's a trend that's even more advanced in China In the West it's more common to use an e-commerce site as the final stop when completing a transaction whereas in China e-commerce sites are destinations where you can make new discoveries acquire information socialize with others who can make informed recommendations and communicate with people who share your interests or concerns Social commerce has become very popular in China because customer acquisition costs have increased significantly on traditional platforms like Alibaba and JD.com so brands and platforms are looking for new ways to engage customers It's estimated that by the end of 2022 15% of all e-commerce in China will be social and it will become a major force in online retail sales As more e-commerce outlets start adding a social element to their business model three general categories have emerged 1 Content Sharing Platforms The content sharing model is based on consumers' trust in other consumers influencers key opinion leaders KOLs and key opinion consumers KOCs Brands and retailers cooperate with them to create content that informs potential buyers about their products and attempts to guide their purchasing decisions KOLs and trusted consumers give products credibility and desirability KOCs are a role specific to China and WeChat KOCs are personal accounts listed under someone's name but they're administered by brand employees and WeChat users are aware of this arrangement These accounts publish information content marketing and many also do a wide range of customer relationship management tasks such as handling complaints making product orders handling returns issuing coupons promoting sales and more This role was developed as a workaround on the highly influential WeChat social media platform as it is built for person to person contact so this method is not only functional but also feels more personal and can deliver the immediate action that many Chinese consumers demand It also enables a low

cost ad network as advertising rates on WeChat are very high
