Claire Kershaw, 2025-08-28 Sometimes you have to bet the farm Eloise has a plan She's finished college and she is moving back home to the perfect small town where she grew up and she is going to save her family's apple farm Nick also has a plan He's so close to finishing his MBA and ready to take the business world by storm He just needs to ace his final project a marketing strategy to revitalise a small town apple farm which just happens to be the rival farm that Eloise has set her sights on for expansion Against a backdrop of fall festivals apple pie baking contests and county fairs the two rivals slowly form an attachment that could end up changing more than their careers **Dis.Ordering Distribution**

Cornelia Storz, Vinzenz Hediger, Matthias Krings, 2025-09-23 Dis Ordering Distribution explores the intricate relationship between distribution and production drawing on empirical evidence from two vibrant centers of cultural production Africa and Asia

The Digital Future of English Simone Murray, 2025-07-18 More than any other academic discipline literary studies is the creation of print culture How then can it thrive in the digital era Early 1990s predictions of the book's imminent demise presented a simplistic either/or choice between the legacy of moribund print and triumphalist digital technology Yet we have grown to experience the two media as complexly interdependent and even complementary Clearly digital does not kill print

But literary studies in the digital era cannot simply resume business as usual. It is urgently necessary to reconsider the discipline's founding assumptions in light of digital technology. The digital era prompts a rethinking of literary studies' object of study as well as its methods, theories, audiences, and pedagogical practices. What counts as literature necessarily shifts in an age of proliferating born-digital texts and do-it-yourself DIY online publication. Where should literary studies sit institutionally and how might it graft contextually oriented social sciences methods onto its traditionally humanistic mode of textual analysis? Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect? Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book-loving publics has never been technologically easier? Finally, how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial-age students? Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading. But these discussions still mostly confine themselves to demarcating our proper object of study. We need to think more expansively about digital technology's impact on the underpinning tenets of the discipline. Literary Media Studies is pitched at fellow literary scholars, book historians, media theorists, cultural sociologists, digital humanists, and those working at the interface of these converging disciplines. It models constructive engagement with contemporary digital culture. Most importantly, it brings a burst of sorely needed optimism to the question of literary studies' digital future.

Black River Orchard Chuck Wendig, 2024-06-25 NATIONAL BESTSELLER A small town is transformed when seven strange trees begin bearing magical apples in this masterpiece of horror from the author of Wanderers and The Book of Accidents. This masterful outing should continue to earn Wendig comparisons to Stephen King. Publishers Weekly starred review. LOCUS AWARD FINALIST. BRAM STOKER AWARD FINALIST. AN NPR BEST BOOK OF THE YEAR. It's autumn in the town of Harrow, but something besides the season is changing there. Because in that town, there is an orchard, and in that orchard, seven most unusual trees. And from those trees grows a new sort of apple, strange, beautiful, with skin so red it's nearly black. Take a bite of one of these apples, and you will desire only to devour another. And another. You will become stronger. More vital. More yourself. You will believe. But then your appetite for the apples and their peculiar gifts will keep growing and become darker. This is what happens when the townsfolk discover the secret of the orchard. Soon it seems that everyone is consumed by an obsession with the magic of the apples, and what's the harm if it is making them all happier, more confident, more powerful? Even if something else is buried in the orchard besides the seeds of these extraordinary trees, a bloody history whose roots reach back to the very origins of the town. But now the leaves are falling. The days grow darker. It's harvest time, and the town will soon reap what it has sown.
