deep into the realm of humanity's most powerful invisible force: social status and how it shapes everything from who we trust and what we value to which ideas and innovations change the world and who gets credit for their success. Why does an authentic Rembrandt fetch hundreds of millions while a nearly identical painting by his most talented disciple goes for a tiny fraction of that price? What makes a restaurant hot a neighborhood up and coming or a technology the next big thing? Why do people often choose the same seats in recurrent office meetings? Who is most likely to interrupt someone else mid sentence? Why do big name lawyers earn so much? Why are health disparities so pronounced? And why when someone gets a bit ahead in life does the small advantage so often compound? The answer to all these questions is social status: invisible hierarchies that influence every aspect of our lives from our health to our personal relationships and careers to how we behave in social and work settings to the tastes and preferences we form. Without it we'd be lost and paralyzed when faced with even the simplest decisions. But it comes at a steep cost: status works as a powerful amplifier turning small initial advantages into insurmountable leads. Inequality is baked into its core. Through compelling examples from business, economics, literature, art, fashion, and beyond, Anointed demonstrates how status cascades through society, creating winners and losers in ways that often have little to do with merit. And how new technology offers a glimpse of a more equitable future.

Artificial Intelligence and Machine Learning in Business Management Sandeep Kumar Panda, Vaibhav Mishra, R. Balamurali, Ahmed A. Elngar, 2021-11-04 Artificial Intelligence and Machine Learning in Business Management. The focus of this book is to introduce artificial intelligence (AI) and machine learning (ML) technologies into the context of business management. The book gives insights into the implementation and impact of AI and ML to business leaders, managers, technology developers, and implementers. With the maturing use of AI or ML in the field of business intelligence, this book examines several projects with innovative uses of AI beyond data organization and access. It follows the Predictive Modeling Toolkit for providing new insight on how to use improved AI tools in the field of business. It explores cultural heritage values and risk assessments for mitigation and conservation and discusses on shore and off shore technological capabilities with spatial tools for addressing marketing and retail strategies and insurance and healthcare systems. Taking a multidisciplinary approach for using AI, this book provides a single comprehensive reference resource for undergraduate, graduate, business professionals, and related disciplines.

Paratexts and Performance in the Novels of Junot Díaz and Sandra Cisneros Ellen

McCracken, 2016-04-30 Part of a new phase of post 1960s U.S. Latino literature, *The Brief Wondrous Life of Oscar Wao* by Junot Díaz and *Caramelo* by Sandra Cisneros both engage in unique networks of paratexts that center on the performance of latinidad. Here Ellen McCracken re-envisions Gérard Genette's paratexts for the present day, arguing that the Internet increases the range, authorship, and reach of the paratextual portals and that they constitute a key element of the creative process of Latino literary production in 21st century America. This smart and useful book examines how both novelists interact with the interplay of populist and hegemonic multiculturalism and allows new points of entry into these novels.

Massage Fusion Rachel Fairweather, Meghan Mari, 2015-07-01 Massage Fusion is an essential companion for any manual therapist interested in treating common pain issues. Acclaimed teachers and therapists Rachel Fairweather and Meghan Mari offer a practical and dynamic step by step approach to gaining results with persistent client problems such as low back pain, neck pain, headaches, carpal tunnel syndrome, TMJ disorders, stress related conditions, and stubborn sporting injuries. The book outlines a clear and evidence based rationale to treatment using a clinically tried and tested combination of advanced massage techniques including myofascial work, trigger point therapy, acupressure, stretching, and client self care suggestions. Named after the authors successful UK based training company, the Jing method, has helped thousands of therapists build their practices. Beautifully illustrated with clear photographs of each step, this book gives massage therapists a tried and tested blueprint for approaching chronic pain conditions with confidence. Drawing on both the available evidence and several decades of clinical experience, Massage Fusion brings together art and science, East and West philosophy and psychology into a joyful exploration of how to gain the best results for your clients. A must read for all bodyworkers who want to be the best.

Social Media and Library Services Lorri Mon, 2022-05-31 The rise of social media technologies has created new ways to seek and share information for millions of users worldwide but also has presented new challenges for libraries in meeting users where they are within social spaces. From social networking sites such as Facebook and Google and microblogging platforms such as Twitter and Tumblr to the image and video sites of YouTube, Flickr, Instagram, and to geotagging sites such as Foursquare, libraries have responded by establishing footholds within a variety of social media platforms and seeking new ways of engaging with online users in social spaces. Libraries are also responding to new social review sites such as Yelp and TripAdvisor, awareness sites including StumbleUpon, Pinterest, Goodreads, and Reddit, and social question and answer Q & A sites such as Yahoo Answers, sites which engage social media users in functions similar to traditional library content curation, readers advisory, information and referral, and reference services. Establishing a social media presence extends the library's physical manifestation into virtual space and increases the library's visibility, reach, and impact. However, beyond simply establishing a social presence for the library, a greater challenge is building effective and engaging social media sites that successfully adapt a library's visibility, voice, and presence to the unique contexts, audiences, and cultures within diverse social media sites. This lecture examines the research and theory on social media and libraries, providing an overview of what is known and what is not yet known about libraries and social media. Chapter 1 focuses on the social media environments within which libraries are establishing a presence, including how social media sites differ from each other yet work together within a social ecosystem. Chapter 2 examines how libraries are engaging with users across a variety of social media platforms and the extent to which libraries are involved in using these different social media platforms, as well as the activities of libraries in presenting a social self, sharing information, and interacting with users via social media. Chapter 3 explores metrics and measures for assessing the impact of the library's activity in social media sites. The book

concludes with Chapter 4 on evolving directions for libraries and social media including potential implications of new and emerging technologies for libraries in social spaces Table of Contents Preface The Social Media Environment Libraries and Social Media Assessing Social Media Sites and Services Evolving Directions in Social Libraries Bibliography Author Biography
