Medical Eligibility Criteria Contraceptive Use

Robert Anthony Hatcher

Medical Eligibility Criteria Contraceptive Use:

Medical eligibility criteria for contraceptive use, sixth edition World Health Organization, 2025-11-03 The Medical eligibility criteria for contraceptive use MEC sixth edition presents current World Health Organization WHO recommendations on the safety of various contraceptive methods for use in the context of specific health conditions and physiologically relevant characteristics The MEC sixth edition has over 2000 recommendations for 25 family planning methods with 112 new or updated recommendations For each medical condition or medically relevant characteristic contraceptive methods are placed into one of four numbered categories with category 1 and 2 indicating that the client can generally use the method while MEC category 3 and 4 indicate that the client should generally not use the method The MEC serves as a companion guideline to the fourth edition of the Selected practice recommendations for contraceptive use SPR which provides recommendations on how to use contraceptive methods safely and effectively once their eligibility has been established Together these documents constitute the global normative family planning guidelines and may be adapted by member states towards improving the quality of family planning services

Medical Eligibility Criteria for Contraceptive Use, 2010 Medical Eligibility Criteria for Contraceptive Use reviews the medical eligibility criteria for use of contraception offering guidance on the safety and use of different methods for women and men with specific characteristics or known medical conditions The recommendations are based on systematic reviews of available clinical and epidemiological research It is a companion guideline to Selected Practice Recommendations for Contraceptive Use Together these documents are intended to be used by policy makers program managers and the scientific community to support national programs in the preparation of service delivery guidelines The fourth edition of this useful resource supersedes previous editions and has been fully updated and expanded It includes over 86 new recommendations and 165 updates to recommendations in the previous edition Guidance for populations with special needs is now provided and a new annex details evidence on drug interactions from concomitant use of antiretroviral therapies and hormonal contraceptives To assist users familiar with the third edition new and updated recommendations are highlighted Everyone involved in providing family planning services and contraception should have the fourth edition of Medical Eligibility Criteria for Contraceptive Use at hand

Medical eligibility criteria for contraceptive use, 2008 Contraceptive Technology Robert Anthony Hatcher, 2007 The leading reference in reproductive health for 30 years with over 2 000 000 copies in print Contraceptive Technology is included on CD ROM with all copies of the book and also available separately as listed below This is a direct electronic conversion complete and unabridged in a PDF format Includes word searching capabilities of the full Contraceptive Technology text Patient instructions or other content for individual counseling or use may also be printed out Active links are provided to the 300 websites recommended by the authors throughout Contraceptive Technology Please see the pages in the back of this book with instructions on how to activate and use the CD ROM Book jacket
