Getting Incentives Right Robert D. Cooter, Ariel Porat, 2024-11-01 How tort, contract, and restitution law can be reformed to better serve the social good. Lawyers, judges, and scholars have long debated whether incentives in tort, contract, and restitution law effectively promote the welfare of society. If these incentives were ideal, tort law would reduce the cost and frequency of accidents, contract law would lubricate transactions, and restitution law would encourage people to benefit others. Unfortunately, the incentives in these laws lead to too many injuries, too little contractual cooperation, and too few unrequested benefits. *Getting Incentives Right* explains how law might better serve the social good. In tort law, Robert Cooter and Ariel Porat propose that all foreseeable risks should be included when setting standards of care and awarding damages. Failure to do so causes accidents that better legal incentives would avoid. In contract law, they show that making a promise often causes the person who receives it to change behavior and undermine the cooperation between the parties. They recommend several solutions, including a novel contract called anti-insurance. In restitution law, people who convey unrequested benefits to others are seldom entitled to compensation. Restitution law should compensate them more than it currently does so that they will provide more unrequested benefits. In these three areas of law, *Getting Incentives Right* demonstrates that better law can promote the well-being of people by providing better incentives for the private regulation of conduct.

Medical Liability and Treatment Relationships Mark A. Hall, Mary Anne Bobinski, David Orentlicher, 2005 The authors blend material from Part I of their survey book with additional information specific to these topics. The text covers the full range of issues arising in the treatment relationship, from formation to termination, plus professional licensure and regulating access to drugs. A detailed chapter on medical malpractice incorporates new material from *Daubert v. Merrell Dow Pharmaceuticals Inc.* Forensic Medicine and Epidemiological Evidence: Discovery and Evidentiary Rules in Malpractice Cases. The Supreme Court's latest decision in *Aetna Health Inc. v. Davilla*. *Medical Liability and Treatment Relationships* shares the strengths that make the authors' survey text so popular: the text integrates legal practice, public policy, and doctrinal issues and features clear notes. A thorough Teacher's Manual created specifically for this book is available at www.healthlaw.org, which provides background materials, updates of important events, additional relevant topics, and links to other resources.

T. H. Johnson,1997 Our Liability Predicament is a non political and non polemical discussion of our present day liability system and its problems It concludes that the culprit has been the gradual devolution of American tort law to the point where it actually encourages litigation greed and revenge as opposed to the proclaimed aim of law as a method of settling disputes amicably expeditiously and fairly The book is divided into six sections the first of which is devoted to the basic facts of tort law how it evolved and how it began to differ from the tort systems of other nations The next section discusses the basic flaws and merits of the system and concludes that the flaws considerably outweigh the merits The third section discusses the need for basic reforms particularly in incentives cost and complexity The fourth section considers specific problems with emphasis on automobile liability and professional malpractice The fifth section discusses the divergent points of view regarding the tort system in the literature as well as various proposals for reform and the final section gives a short summary and conclusion Law Books Published 1993 Suppl ,1994 Suffolk Transnational Law Review ,1995 **Secondary Legal Sources** ,2001 American Jurisprudence Proof of Facts, 3d Series ,1988 Provides text and sample testimony to assist in preparing for and proving facts that may be in issue in judicial and administrative proceedings Kept up to date by packet supplements Library has second and third series New Titles in Bioethics ,1995
