

A photograph of three children playing hopscotch on a paved surface. The children are in motion, creating a slight blur. The hopscotch grid is drawn with green chalk, and the numbers are written in blue. The child on the left is a girl in a pink dress, the child in the middle is a boy in a red shirt and dark pants, and the child on the right is a boy in a white shirt and dark pants.

Medicating Children Rick Mayes, Catherine Bagwell, Jennifer L. Erkulwater, 2009-01-31 Integrating analyses of clinical political historical educational social economic and legal aspects of ADHD and stimulant pharmacotherapy Mayes and colleagues argue that a unique alignment of social and economic factors converged in the early 1990s with greater scientific knowledge to make ADHD the most prevalent pediatric mental disorder *Should I Medicate My Child?* Lawrence Diller, 2003-04-17 When *Running on Ritalin* was published in 1998 it touched off a firestorm about treating children with psychiatric drugs Dr Lawrence Diller established himself as the leading expert on the controversial use of stimulants for attention deficit disorder Since then parents physicians teachers and psychologists have clamored for his expertise on psychological problems beyond ADD and on drugs beyond Ritalin More and more parents are asking the simple question Should I medicate my child The answer is not as simple as some experts say Children who are angry intense distractible over energetic obsessive shy listless or remote rarely benefit from an either/or strategy Unlike those with a strong pro or anti drug agenda Dr Diller advocates a balanced approach he shows how a wise pediatrician one who prescribes drugs but also urges non pharmaceutical interventions when possible makes decisions Should I Medicate My Child empowers parents to ask the same questions Dr Diller poses in diagnosis and treatment Have all non drug approaches been tried Is the diagnosis accurate What is known or unknown about the recommended drug Calmly comforting authoritative and illustrated with real life examples Should I Medicate My Child is essential reading for parents who have been told their preschooler should be tested for a disorder whose fifth grader has been prescribed Prozac or Depakote or whose teenager has been diagnosed with a chemical imbalance Should I Medicate My Child features a detailed easy to access Appendix of Frequently Prescribed Drugs what they do side effects dosages and more Should I Medicate My Child answers parents vital questions Is it fair to discipline my hyperactive child if he can't help himself when he misbehaves Choosing the right kind of discipline is essential Often the time honored time out is not the best choice The psychiatrist says the medication he's prescribing is safe How can I know if that's true Dr Diller's detailed Appendix includes little known information on how or if a drug has actually been tested on children Does it make good sense to use medication right away Dr Diller explains why this can sometimes be the best course of action My pediatrician says there are drugs that will help my shy six year old be more outgoing Is this true Prescribing drugs for withdrawn children is a risky business Dr Diller explains why and offers alternatives to help ease their distress

Children on Medication Volume II Kenneth D. Gadow, 2018-09-03 First published in 1986 The primary purpose of this book is to provide information about the use of medication for several childhood disorders that require long term treatment It is the author's expectation that this information will allow caregivers to make better decisions about the use of medication This title also examines the importance of evaluating various aspects when medicating a child including their characteristics their family situation and school setting Treating Children's Psychosocial Problems in Primary Care Beth Wildman, Tracy

Stancin,2006-05-01 The Forum that led to this volume was the thirteenth in an on going annual series sponsored by the Applied Psychology Center APC at Kent State University The resources and programs of the APC allowed for the prominent clinicians and scholars to attend the meeting and interact informally in the picturesque and relaxing atmosphere of the Inn at Honey Run in the heart of the Amish area of Northeast Ohio This environment nurtured interaction among the participants for three days and permitted all to leave the Forum with ideas well beyond those presented in the text We are grateful to the APC for facilitating this endeavor The editors would especially like to acknowledge the on going contribution of Kathy Floody without whose help neither the Forum nor this book would exist Kathy arranged for every detail of the Forum from transportation plans rooms food and drink to scheduling of papers discussions and tours of the local area Kathy compulsively reviewed all chapters for references errors and oversights and maintained a positive disposition and encouraging demeanor throughout the process The success of the Forum was as much Kathy s doing as it was the responsibility of the scholars who participated

Over Medicating Our Youth Frank J. Granett R.Ph.,2012-04 Over Medicating Our Youth provides knowledge for parents educators and physicians to consider the etiology or causation of behavioral conditions before medicating children with psychiatric and Attention Deficit Disorder ADD symptoms The prescribing of stimulant and psychiatric medications prior to ruling out nutritional physiological and environmental causation for behavioral conditions requires reform This book provides guidance for parents educators and physicians to utilize effective alternative treatments plans as well as assessments prior to prematurely medicating children The recent United States Government Accountability Office GAO Child Foster Care report uncovered the injustice of overmedicating children with ADD stimulant and psychiatric drugs The GAO report proves that a positive change in the treatment of childhood behavioral conditions should involve a more comprehensive assessment as to the causation of behavioral symptoms
