Practicing Presence Lisa Lucas, 2023-10-10 Most teachers enter the field of education to make a difference in children's lives. But many end up as author Dr Lisa Lucas puts it: tired, wired and running in circles. This leads to many new teachers abandoning the profession or to burnout among veteran teachers. In *Practicing Presence: Simple Self Care Strategies for Teachers*, Dr Lucas invites the reader to learn how to fully inhabit the present moment. Written in an informal and conversational tone, *Practicing Presence* is filled with ideas, exercises, checklists, personal anecdotes and practices you can use to reframe and establish a mindset that will enhance your focus and engagement in the classroom. With approximately 50% of new teachers leaving the education field before the 5 year mark, it is more important than ever for educators to prioritize self care. Each chapter of *Practicing Presence* includes self care strategies that explore how to self regulate, nurture self acceptance and promote compassion. Inside you'll find Quotes and affirmations throughout the texts. Scientific research and reflections on how these theories and practices can apply to your own life. Paths to Mindful Teaching and how to integrate into your daily life. Additional resources and online content to further support your practice. When teachers care for themselves deeply and deliberately, they are better able to care for the people that matter most in their lives: their students, friends and families. *Practicing Presence* focuses not on doing but rather on being present in the life of the classroom.

**Good Morning, I Love You** Shauna Shapiro, PhD, 2020-01-28 Discover the Transformative Effects of Being Kind to Yourself. This brilliant book offers us both the science and practice of how self kindness is the secret sauce of fulfillment, transformation and joy. Lorin Roche, meditation teacher and author of *The Radiance Sutras*. Many of us yearn to feel a greater sense of inner calm, ease, joy and purpose. We have tried meditation and found it too difficult. We judge ourselves for being no good at emptying our minds as if one ever could or compare ourselves with yogis who seem to have it all together. We live in a steady state of not good enough. It does not have to be this way. In *Good Morning I Love You*, Dr Shauna Shapiro brings alive the brain science behind why we feel the way we do about ourselves, each other and the world and explains why we get stuck in thinking that doesn't serve us. It turns out that we are hardwired to be self critical and negative. And this negativity is constantly undermining our experience of life. It is never too late to rewire your brain for positivity for calm, clarity and joy, writes Dr Shapiro. I know this is possible because I experienced it. Best of all, you can begin wherever you

are In short lively chapters laced with science wisdom and story Shapiro one of the leading scientists studying the effects of mindfulness on the brain shows us that acting with kindness and compassion toward ourselves is the key With her roadmap to guide you including her signature Good Morning I Love You practice in which you deliberately greet yourself each day with these simple words you can change your brain s circuitry and steady yourself in feelings of deep calm clarity and joy For good
