change and highlights the role of literature in inspiring hope and action The book takes readers on various journeys from the coasts of the Aegean Sea to the mountains of Eastern Anatolia Ergin converses with both twentieth century writers to shed new light on familiar texts and contemporary writers to capture emerging perspectives including Rum Laz Kurdish and Armenian voices in her discussion The study is further enriched by an interdisciplinary inquiry that brings literature into dialogue with climate science political history underwater photography folk music and bio art

Principles and Methods in Landscape Ecology A. Farina, 2013-04-17 Currently considered a bridge between basic and applied ecology landscape ecology occupies an important new niche in ecology representing a new paradigm in developing a good educational framework in the galaxy of the ecological sciences Both are important and not in conflict In this book However the broad spectrum of conceptual and spiritual I have prepared this book with the aim of methodological approaches has created a non summarizing the best theories concepts principles focused science strongly influenced by the more and methods in landscape ecology It is an attempt dominant disciplines such as landscape planning to reinforce the ecological research perspective to and restoration forest management landscape consolidate principles and methods validate process architecture etc and reconcile different positions including The uncertain position of landscape ecology the geobotanical animal and human perspectives among the ecological disciplines is in contradiction The concept is very simple I have no ambition with the general recognition that landscape is a space to present new ideas and theories I have worked to this dimension in which important ecological create a tool mainly for classroom use but also processes occur and landscape is becoming very appealing to a broad range of scientists and practitioners popular in many ecology related fields from plant ecologists dealing with landscape ecology and its disease to animal behaviour problems

Principles and Methods in Landscape Ecology Aldo Farina, 2008-01-22 Landscape ecology is an integrative and multi disciplinary science and Principles and Methods in Landscape Ecology reconciles the geological botanical zoological and human perspectives In particular new paradigms and theories such as percolation metapopulation hierarchies source sink models have been integrated in this last edition with the recent theories on bio complexity information and cognitive sciences Methods for studying landscape ecology are covered including spatial geometry models and remote sensing in order to create confidence toward techniques and approaches that require a high experience and long time dedication Principles and Methods in Landscape Ecology is a textbook useful to present the landscape in a multi vision perspective for undergraduate and graduate students of biology ecology geography forestry agronomy landscape architecture and planning Sociology economics history archaeology anthropology ecological psychology are some sciences that can benefit of the holistic vision offered by this textbook

Transdisciplinary Challenges in Landscape Ecology and Restoration Ecology - An Anthology Zev Naveh, 2007-06-06 Capitalizing on forty years of intensive ecological studies this anthology presents a collection of widely dispersed major publications on theoretical and

practical Mediterranean global environmental and landscape issues Each chapter features a comprehensive study of ecological and landscape issues synthesized in the introduction and woven with autobiographical experiences The concluding chapter calls for a transdisciplinary shift in all environmental scientific fields and particularly in landscape and restoration ecology to cope with the complex closely interwoven ecological socio economical political and cultural crises facing human society during the present crucial transition from the industrial to the post industrial global information age Updating and broadening the scope of the groundbreaking Springer book on Landscape Theory and Applications by the author and Lieberman 1994 this is a unique transdisciplinary attempt based on advanced systems complexity theories which link the natural and human sciences Friends and Foes Volume II Elisabetta Viggiani, Graeme Watson, 2010-02-19 The product of an international multi disciplinary conference at Queen s University Belfast the two volume Friends and Foes series offers an illuminating investigation of the relationship between friendship and conflict by established and emerging scholars This second volume explores the topic from political sociological and psychological perspectives Many of these essays examine what types of friendships are forged and how in contexts of potential or actual social and political conflict such as in Northern Ireland during the Troubles Others focus on how situations of conflict can be transformed into friendship using insights from psychology philosophy history and anthropology The papers in this volume will appeal to sociologists political scientists and all those concerned with themes of conflict resolution identity social capital community building and well being

Cultural Landscape in Practice Giuseppe Amoruso, Rossella Salerno, 2019-02-13 This book approaches cultural landscape as a driver for societal challenges economic development social inclusion place assessment and heritage conservation It explores issues stemming from the relation between conservation and emergencies and identifies descriptive tools for conveying knowledge and generating new expertise heritage skills seismic culture and social resilience The documentation of landscapes due in part to new technologies increasingly involves integrated methodologies and graphic outcomes such as Heritage BIM advanced 3D modeling and immersive environments According to recent UNESCO recommendations the process of mapping places is a necessary prerequisite for design action and also includes the emotional and perceptive dimension so as to represent space through visual thought and produce graphic materials The chapters presented here will ultimately support efforts to overcome the emergency phase of reconstruction after natural disasters and by exploring relevant issues in recent studies will describe emerging tools that can help inspire practices that concern not only agrarian and urban but also historic urban landscapes The work also presents planning tools to help preserve the integrity and authenticity of urban heritages The book will benefit all scholars and practitioners who are involved in the process of understanding designing and transforming places and will foster an international exchange of research case studies and best practices to confront the practical challenges involved in keeping cultural landscapes alive Biocultural Diversity in Europe Mauro Agnoletti, Francesca Emanuelli, 2016-02-29 The book collects a selection of the papers presented at

the meeting held in the context of the Joint Programme on the Links between Biological and Cultural Diversity JP BiCuD Recognizing the inextricable link between biological and cultural diversity the United Nations Educational Scientific and Cultural Organization UNESCO and the Secretariat of the Convention on Biological Diversity SCBD joined forces and in 2010 launched the Joint Programme on the Links between Biological and Cultural Diversity JP BiCuD The first meeting for the implementation of the JP BiCuD was held in Florence Italy in April 2014 and produced the UNESCO sCBD Florence Declaration which highlights the concept of biocultural diversity The European rural territory is predominantly a biocultural multi functional landscape providing a crucial and effective space for integration of biological and cultural diversity suggesting the need to revise some of the current strategies for the assessment and management of biodiversity 5th International Congress on , **Routledge Handbook of Landscape Character Assessment** Graham Fairclough, Ingrid Sarlöv Herlin, Carys Swanwick, 2018-05-11 In this multi authored book senior practitioners and researchers offer an international overview of landscape character approaches for those working in research policy and practice relating to landscape Over the last three decades European practice in landscape has moved from a narrow if relatively straightforward focus on natural beauty or scenery to a much broader concept of landscape character constructed through human perception and transcending any of its individual elements Methods tools and techniques have been developed to give practical meaning to this idea of landscape character The two main methods Landscape Character Assessment LCA and Historic Landscape Characterisation HLC were applied first in the United Kingdom but other methods are in use elsewhere in Europe and beyond to achieve similar ends This book explores why different approaches exist the extent to which disciplinary or cultural specificities in different countries affect approaches to land management and landscape planning and highlights areas for reciprocal learning and knowledge transfer Contributors to the book focus on examples of European countries such as Sweden Turkey and Portugal that have adopted and extended UK style landscape characterisation but also on countries with their own distinctive approaches that have developed from different conceptual roots as in Germany France and the Netherlands The collection is completed by chapters looking at landscape approaches based on non European concepts of landscape in North America Australia and New Zealand This book has an introductory price of 125 205 which will last until 3 months after publication after this time it will revert to 140 225 Biodiversity Adriano Sofo, 2011-10-10 Biodiversity is strongly affected by the rapid and accelerating changes in the global climate which largely stem from human activity Anthropogenic activities are causing highly influential impacts on species persistence The sustained environmental change wildlife is experiencing may surpass the capacity of developmental genetic and demographic mechanisms that populations have developed to deal with these alterations How biodiversity is perceived and maintained affects ecosystem functioning as well as how the goods and services that ecosystems provide to humans can be used Recognizing biodiversity is essential to preserve wildlife Furthermore the measure management and protection of ecosystem biodiversity requires different and

innovative approaches For all these reasons the aim of the present book is to give an up to date overview of the studies on biodiversity at all levels in order to better understand the dynamics and the mechanisms at the basis of the richness of life forms both in terrestrial including agro ecosystems and marine environments Report on the Development of Cruise Industry in China (2018) Hong Wang, 2019-01-10 This book is an annual research report prepared by the cruise industry experts and scholars at home and abroad invited by Shanghai International Cruise Business Institute based on the current development situations of the international cruise industry is an important part of the X Book Series of the Social Science Academic Press China This book consists of five parts i e General Report Special Articles for High quality Tourism Common Value and Government Management The Cruise Industry Policy Suggestions and Appendix and it has richer and more perfect contents in comparison with the previous versions Under the Book the development environment of the cruise industry at home and abroad during 2017 2018 as well as the development situations strategic paths and future trends is analyzed in the form of the General Report and the current development trend of the cruise industry in China is introduced based on the top ten hot topics With the economic development trend from the high speed growth to the high quality development in China the new topic Special Articles for High quality Tourism Common Value and Government Management is presented in the Book to discuss the quality development patterns and paths of the cruise tourism in China the high quality development mechanism of the cruise tourism as well as the cruise tourism market cultivation and standardization system so as to better enhance the quality of the cruise market development in China In Part 3 The Cruise Industry and Part 4 Policy Suggestions under the Book the whole picture of the cruise economy in China in the new era is presented problems during the industrial development are analyzed and corresponding policy suggestions are given **Evolutionary Theory and Processes:**
