When it comes to extraterrestrial life forms, there's more to science fiction's most famous galaxy than just Jawas, Wookiees, Ewoks and Hutts. From the skylanes of Coruscant to the worlds of the Outer Rim, an untold number of species populate those planets far, far away. And if you confuse Gungans with Gamorreans or don't know a bantha from a tauntaun, you definitely need the in-depth data that only this revised, expanded and updated guide can deliver. This comprehensive overview includes beings from all six of the classic movies, plus the novels, cartoon series, comics and video games. It's an even bigger cross-section of species than what you'll find in the Mos Eisley cantina. And each entry, from Acklay to Zabrak, from amphibians to vacuum breathers, features everything you need to know, including complete physical description and official designation, so you can tell your sentients from your non-sentients and your humanoids from your insectoids. Homeworld from dry and dusty Tatooine, stormy and waterlogged Kamino to arctic Hoth and countless other strange and varied worlds. Phonetic pronunciation. Askajian, Hnemthe, Iktotchi, Ssi-ruu and Xexto Quermian aren't as easy to say as they are to spell. Notable appearance: a listing of one of the more significant appearances of each species in the teeming Star Wars storyline. Plus, this brand-new edition includes a glossary of crucial descriptive terms and a completely original, full-color illustration for each of more than one hundred individual species. It's a big galaxy and someone has to organize it. Count on Star Wars: The New Essential Guide to Alien Species and don't leave your homeworld without it. *Star Wars: Scoundrels* Timothy Zahn, 2013-08-01 To make his biggest

score Han's ready to take even bigger risks But even he can't do this job solo Han Solo should be basking in his moment of glory After all the cocky smuggler and captain of the Millennium Falcon just played a key role in the daring raid that destroyed the Death Star and landed the first serious blow to the Empire in its war against the Rebel Alliance But after losing the reward his heroics earned him Han's got nothing to celebrate Especially since he's deep in debt to the ruthless crime lord Jabba the Hutt There's a bounty on Han's head and if he can't cough up the credits he'll surely pay with his hide The only thing that can save him is a king's ransom Or maybe a gangster's fortune That's what a mysterious stranger is offering in exchange for Han's less than legal help with a riskier than usual caper The payoff will be more than enough for Han to settle up with Jabba and ensure he never has to haggle with the Hutts again All he has to do is infiltrate the ultra fortified stronghold of a Black Sun crime syndicate underboss and crack the galaxy's most notoriously impregnable safe It sounds like a job for miracle workers or madmen So Han assembles a gallery of rogues who are a little of both including his indispensable sidekick Chewbacca and the cunning Lando Calrissian If anyone can dodge deceive and defeat heavily armed thugs killer droids and Imperial agents alike and pull off the heist of the century it's Solo's scoundrels But will their crime really pay or will it cost them the ultimate price
