Press Summary - Illinois Information Service Illinois Information Service,1995 *Manual of Geography* Matthew Fontaine Maury,1899 *The SAGES Manual of Metabolic and Bariatric Surgery* Omar M. Ghanem,Farah Husain,Judy Y. Chen,Robert B. Lim,Matthew Kroh,2024-12-26 Obesity is an epidemic more than 40% of the United States population suffers from obesity and as such it has a high burden of weight related conditions and diseases Metabolic and bariatric surgery has proven to be the most effective and durable treatment of severe obesity Technological advances including applications of laparoscopy robotics and endoluminal techniques have rapidly advanced this field Data and outcomes examining treatments have also improved and as providers we have a wide spectrum of therapeutic options to treat patients As techniques and outcomes change rapidly access to a comprehensive yet focused resource regarding bariatric surgery is currently limited The third edition of this manual is designed to present a comprehensive and state of the art approach to the current and future status of metabolic and bariatric surgery Sections will address the evolution in specific treatments available to patients initial evaluation and selection of procedures for individual patients the latest surgical and endoscopic techniques being employed to treat patients including data on outcomes and future directions for therapy In particular and unique amongst references a major focus of this text will be on both the bariatric and metabolic bases of therapies and outcomes *Handbook of Child and Adolescent Sexuality* Daniel S. Bromberg,William T. O'Donohue,2013-01-28 Adolescent and child sexuality is studied by developmental psychologists from a research perspective and is of interest to forensic psychologists dealing with abuse and custody issues as well as rape cases In many cases it is of interest whether the child in question was sexually active to understand the extent to which an underage minor might have voluntarily participated in sexual activity as opposed to having been coerced Previously researchers interested in the applications of their research needed to look to separate books and forensic specialists needed to look to development books to find the information they may have needed This handbook provides both audiences with the related information they need Encompasses normative behavior and clinical disorders in one source Applies the information on development and behavior to forensic issues Provides treatment information on sexual disorders in children Provides information on children and adolescents in one volume *Math with Bad Drawings* Ben Orlin,2018-09-18 A hilarious reeducation in mathematics full of joy jokes and stick figures that sheds light on the countless practical and wonderful ways that math structures and shapes our world In *Math With Bad Drawings* Ben Orlin reveals to us what math actually is its myriad uses its strange symbols and the wild leaps of logic and faith that define the usually impenetrable work of the mathematician Truth and knowledge come in multiple forms colorful drawings encouraging jokes and the stories and insights of an empathetic teacher who believes that math should belong to everyone Orlin shows us how to think like a mathematician by teaching us a brand new game of tic tac toe how to understand an economic crises by rolling a pair of dice and the mathematical headache that ensues when attempting to build a spherical Death Star Every discussion

in the book is illustrated with Orlin's trademark bad drawings which convey his message and insights with perfect pitch and clarity With 24 chapters covering topics from the electoral college to human genetics to the reasons not to trust statistics *Math with Bad Drawings* is a life changing book for the math estranged and math enamored alike *The Languages and Linguistics of Indigenous North America* Carmen Dagostino, Marianne Mithun, Keren Rice, 2023-12-18 This handbook provides broad coverage of the languages indigenous to North America with special focus on typologically interesting features and areal characteristics surveys of current work and topics of particular importance to communities The volume is divided into two major parts subfields of linguistics and family sketches The subfields include those that are customarily addressed in discussions of North American languages sounds and sound structure words sentences as well as many that have received somewhat less attention until recently tone prosody sociolinguistic variation directives information structure discourse meaning language over space and time conversation structure evidentiality pragmatics verbal art first and second language acquisition archives evolving notions of fieldwork Family sketches cover major language families and isolates and highlight topics of special value to communities engaged in work on language maintenance documentation and revitalization
