Screen Couple Chemistry Martha P. Nochimson, 2010-07-05 Astaire and Rogers Tracy and Hepburn Just the mention of their names evokes the powerful chemistry between these screen couples which utterly transcended the often formulaic films in which they appeared together Indeed watching the synergistic flow of energy between charismatic screen partners is one of the great pleasures of cinema and television as well as an important vehicle for thinking through issues of intimacy and gender relations In this book Martha P Nochimson engages in a groundbreaking study of screen couple chemistry She begins by classifying various types of couples to define what sets the synergistic couple apart from other onscreen pairings Then she moves into extended discussions of four enduring screen couples Maureen O Sullivan Johnny Weissmuller Myrna Loy William Powell Fred Astaire Ginger Rogers and Katharine Hepburn Spencer Tracy Using theories of neuroscience she demonstrates that their onscreen chemistry is a very real phenomenon powerful enough to subvert conventional formulations of male female relations Material she has uncovered in the infamous Production Code Administration files illuminates the historical context of her contentions Finally Nochimson traces the screen couple to its present day incarnation in such pairs as Woody Allen Diane Keaton Scully Mulder of The X Files and Cliff Claire Huxtable of The Cosby Show
