

Approving Requisitions

Approvers receive a notification via e-mail that a requisition requires approval. Approvers can view the notification details and approve, amend or reject the requisition.

Requisitions not approved within 5 days of receipt will either timeout and are returned to the preparer or automatically routed to the next level approver (when one has been defined).

Once the requisition has been approved a notification is sent to the requester and the requisition has a status of "Approved".

iProcurement Notifications are accessed via the iProcurement responsibility. Notifications are contained in a Worklist and are like emails that are interactive. They act like an electronic To Do list known as Oracle Workflow. When the system needs your input, Oracle sends you a notification that appears in your Worklist.

3.1 Approving a Requisition
