depicting their heroes and heroines how they positioned the narrator how they responded to existing texts how they utilised or transcended genre conventions for their own purposes and how they sought to relate to their audiences The literary focus of the chapters assembled here showcases the diversity of hagiographical texts written in Greek Latin Coptic and Syriac as well as pointing out the ongoing conversations that connect them By asking these questions of this diverse group of texts it illuminates the literary development of hagiography in the late antique Byzantine and medieval periods **Collective**

Emotions Christian von Scheve, Mikko Salmella, 2014 Although collective emotions have a long tradition in scientific inquiry for instance in mass psychology and the sociology of rituals and social movements their importance for individuals and the social world has never been more obvious than in the past decades The Arab Spring revolution the Occupy Wall Street movement and mass gatherings at music festivals or mega sports events clearly show the impact collective emotions have both in terms of driving conflict and in uniting people But these examples only show the most obvious and evident forms of collective emotions Others are more subtle although less important shared moods emotional atmospheres and intergroup emotions are part and parcel of our social life Although these phenomena go hand in hand with any formation of sociality they are little understood Moreover there still is a large gap in our understanding of individual emotions on the one hand and collective emotional phenomena on the other hand This book presents a comprehensive overview of contemporary theories and research on collective emotions It spans several disciplines and brings together for the first time various strands of inquiry and up to date research in the study of collective emotions and related phenomena In focusing on conceptual theoretical and methodological issues in collective emotion research the volume narrows the gap between the wealth of studies on individual emotions and inquiries into collective emotions The book catches up with a renewed interest into the collective dimensions of emotions and their close relatives for example emotional climates atmospheres communities and intergroup emotions This interest is propelled by a more general increase in research on the social and interpersonal aspects of emotion on the one hand and by trends in philosophy and cognitive science towards refined conceptual analyses of collective entities and the collective properties of cognition on the other hand The book includes sections on Conceptual Perspectives Collective Emotion in Face to Face Interactions The Social Relational Dimension of Collective Emotion The Social Consequences of Collective Emotions Group Based and Intergroup Emotion Rituals Movements and Social Organization and Collective Emotions in Online Social Systems Including contributions from psychologists philosophers sociologists and neuroscience this volume is a unique and valuable contribution to the affective sciences literature
