equally wide variety of scientific political and national security reasons Melvin Croft and John Youskauskas focus on this special fraternity of spacefarers and their individual reflections on living and working in space Relatively unknown to the public and often flying only single missions these payload specialists give the reader an unusual perspective on the experience of human spaceflight The authors also bring to light NASA's struggle to integrate the wide ranging personalities and professions of these men and women into the professional astronaut ranks While Come Fly with Us relates the experiences of the payload specialists up to and including the Challenger tragedy the authors also detail the later high profile flights of a select few including Barbara Morgan John Glenn who returned to space at the age of seventy seven and Ilan Ramon of Israel aboard Columbia on its final fatal flight STS 107
