Oregon Manual Grease Gun:

The WPA Guide to Oregon Federal Writers' Project, 2013-10-31 During the 1930s in the United States the Works Progress Administration developed the Federal Writers Project to support writers and artists while making a national effort to document the country's shared history and culture. The American Guide series consists of individual guides to each of the states. Little known authors many of whom would later become celebrated literary figures were commissioned to write these important books. John Steinbeck, Saul Bellow, Zora Neale Hurston, and Ralph Ellison are among the more than 6,000 writers, editors, historians, and researchers who documented this celebration of local histories. Photographs, drawings, driving tours, detailed descriptions of towns, and rich cultural details exhibit each state's unique flavor. The WPA Guide to Oregon contains some quaint features including a chapter entitled Tall Tales and Legends and a recipe for huckleberry cakes. The impact of the depression on the people of the Beaver State is discussed, and the beauty of the state is emphasized from the tips of the Cascadian Mountains to the agricultural region of Willamette Valley.

Forest Industries, 1974 **History of the Pacific Northwest: Oregon and Washington**, 1889 **The Lifeline of the Oregon Country** James R. Gibson, 2011-11-01 Furs is what brings us remarked an early trader in the Oregon Country adding however that the difficulty of getting the necessary supplies will continue to operate against it located as it was on the worst side of the Rocky Mountains. Fortunately the discovery in 1805 by Lewis and Clark that the Columbia River was navigable by canoe or boat to the Pacific led to the logistical linking of the New Caledonia and Columbia Districts by means of the Fraser-Columbia brigade system. First used in 1811 by the North West Company, this transport system of North canoes, Indian pack horses, and Columbia batteaux eventually became the lifeline of the fur trade of the Hudson's Bay Company's Columbia Department until 1847 when the route was severed by the extension of the Canada-US border along the forty-ninth parallel to the Pacific. In *The Lifeline of the Oregon Country* James Gibson compellingly immerses the reader in one of the most intractable problems faced by the Hudson's Bay Company: how to realize wealth from such a remote and formidable

land The personalities places obstacles and operations involved in the brigade system are all described in fascinating detail stretch by stretch from Fort St James the depot of New Caledonia on the upper reaches of the Fraser River to Fort Vancouver the Columbia Department s entrep t on the lower Columbia River and back Never before has such a rich collection of primary information concerning the fur trade supply system and the constraining role of logistics been so meticulously assembled The Lifeline of the Oregon Country will prove indispensable to historians researchers and fur trade enthusiasts alike and is an important contribution to our understanding of the economic history of the Pacific Slope *Forestry and British Timber*
