Solution Chemistry of Surfactants K.L. Mittal, 2012-12-06 The 52nd Colloid and Surface Science Symposium of the Division of Colloid and Surface Chemistry of the American Chemical Society was held in Knoxville TN June 12-14 1978 and one of its Sections was devoted to the topic of Solution Chemistry of Surfactants Although it was billed as the Section on Solution Chemistry of Surfactants but it was indeed a veritable international symposium on this topic as 51 papers by about 100 contributors from 12 countries were listed in the program The present volume and its companion volume 2 document the proceedings of the above mentioned Section on Solution Chemistry of Surfactants In 1976 there was held an international symposium on Micellization Solubilization and Microemulsions in Albany l the proceedings of which have been chronicled in two volumes A great deal of material dealing with micelles contributed by a legion of prominent researchers constitutes these volumes but a few subtopics were not adequately covered so it was deemed appropriate to cover these topics as well as the recent progress in the general area of aggregation of surfactants in this Section Also as it is the amphiphilicity or amphipathicity of a surfactant molecule which is responsible for both adsorption at interfaces and aggregation in solution so it was considered quite apropos to include the topic of adsorption at interfaces in this Section

Concomitantly the present volumes not only cover the aggregation phenomena but also the adsorption at interfaces
