Educational Leadership and Organizational Management Victor C.X. Wang, Bernice Bain, John Hope, Catherine A. Hansman, 2016-10-01 This book is intended for students leaders and managers who wish to explore the personal relevance and conceptual bases of educational leadership and organizational management and to develop their expertise in this field It is a book written for both scholars and practitioners The general public will also appreciate the accessible language in the book There are two goals in the experiential learning process One is to learn the specifics of a particular subject matter in this case educational leadership and organizational management The other is to learn about one s own strengths and weaknesses as a learner This book is focused on the analysis of prevalent theories and concepts and their application to the development of leadership and management skills and the knowledge and attitudes required to solve real world problems in

the workplace For decades students have focused their studies of educational leadership and organizational management theories in classroom settings without actual opportunities to apply these theories in the workplace A profound and significant lesson learned in history is that we must follow the principle of integrating theory with practice unity of theory with practice Then we can follow the policy of walking on two legs an analogy made by the late Chinese chairman Mao Ze Dong Innovation Renu Agarwal, Eric Patterson, Sancheeta Pugalia, Roy Green, 2022-09-01 In recent years a great deal of attention has been focussed on the undertaking of managing innovation Without the right focus resourcing and capabilities firms struggle to create value through innovation However the task of managing innovation is one of continuous paradoxes where an overly structured mind set can impede entrepreneurship creativity culture and the right conditions for disruption The question remains of how we can have the right lens to properly understand and appreciate innovation and how we can have a flexible set of tools techniques and perspectives to support innovation This concise text introduces readers to one of the fundamental ideas in the business world Insights into the key ingredients of innovation including business models services entrepreneurship and creativity are analysed alongside core contexts such as disruptive technology Students of business and management will appreciate additional coverage of the future of the field including open innovation and the dark side of digital disruption This accessible book provides a thought provoking stimulating perspective that will make it a valuable resource for a range of academic and student audiences across business and management disciplines

Entrepreneurship and Entrepreneurial Skills in Europe Ileana Hamburg, Alexandra David, 2017-07-17 The labour markets and European societies as a whole are subject to constant change One way to face these challenges is the application of entrepreneurial skills like self motivation time management etc The authors give examples of entrepreneurship in the fields of digitalization social innovation and eco innovation and present special groups of entrepreneurs e g migrants and their entrepreneurial spirit Thus the readers get insight in how an innovative and competitive Europe can look like

Visionary Leadership Thomas E. Anderson, II, 2024-09-20 This book provides managers and leaders with a conceptual framework for visionary leadership to help them rediscover their vision in a more meaningful way with long lasting results It guides managers and leaders through four overlapping phases of the vision development and realization cycle at different levels and during various life stages It teaches leaders to embrace employees as visionary partners in the journey to build a better organization The founder CEO s journey to lead a high growth company begins with the ability to see their role within the company and the company itself through new lenses While it requires a CEO to evolve and grow with their company as their plans for the company expand the visionary should not solely set their sights on new horizons Their ability to see within their company should become more granular as well Featuring real world case examples and chapter summaries with key takeaways this book allows the business leader to walk themselves through the process of visioning with their team from start to finish It also allows consultants and coaches to see the full lifecycle of a vision and support the visionary at any level
