Robbins,1983 OB: The Essentials Stephen P. Robbins,Timothy A. Judge,Bruce Millett,2015-05-20 Robbins Leading the way in OB Written as an alternative to Robbins larger Organisational Behaviour text OB The Essentials is an applied and focused text that will help your students to quickly grasp the essential elements of OB In an engaging 13 chapter format this book retains the fluid writing style academic rigour and extensive use of examples that are trademark features of the Robbins texts While there are less chapters the book continues to provide cutting edge content that is often missing in other OB books this is not merely a subset of material from Robbin s Organisational Behaviour text it was written from the ground up to present all the essential content in a shorter format This new text will have broad appeal particularly to visual learners who will appreciate the lively design and extensive use of examples and photographs to aid comprehension and retention of concepts New co author Dr Michael Jones of the University of Wollongong brings his avid enthusiasm for student education as well as a solid research background in motivation commitment and business operations to the new text Reviewers and users of the Robbins texts regularly report that they are conversational interesting student friendly and very clear and understandable Packed full of pedagogical features that will engage and stimulate your students OB The Essentials will ensure that they are getting a sound understanding of OB Features such as the Applying Knowledge and Student Challenge boxes prompt students to apply and think strategically about what they have just learnt *Human Resource Management Practices in Selected Ethiopian Private Companies: A Study to Increase Employee Productivity in Ethiopia* Dirk J. van Wasbeek,2004-09-24 This dissertation examines how human resources are managed at selected Ethiopian private companies how Ethiopian human resource management practice is evolving and how it can be improved The examination is qualitative and exploratory since no comparative research on human resource management has yet been conducted at Ethiopian profit or non profit organizations An understanding of Ethiopian human resource management practice makes it possible to improve Ethiopian human resource management practice and thus to increase employee productivity The study took place at four manufacturing and four service companies in Addis Ababa all representative of their sector The research claim is that Ethiopian human resource management practices differ from human resource management practices in the West due to differences in cultural factors economic systems political systems and legal and industrial relations For this reason Ethiopia s culture politics economy and legal and industrial relations have been analyzed The main finding of this study is that the importance of human resource management is not uniformly understood at all the case study companies Although the multinational companies based in Ethiopia see their human resources as the companies most important asset as human capital the local companies generally do not The fact that respondents claim that Ethiopia has limited experience in industrialization might explain why human resource management in Ethiopia is rudimentary and still has a long way to go With this dissertation the researcher wants to

contribute to improving Ethiopian human resource management practice Moreover this dissertation may be used as a framework for similar research in other sectors or for more specific in depth research This dissertation may also serve as a knowledge base for company managers business consultants academics and government officials of countries with a national culture similar to Ethiopia s for example Kenya Tanzania and Zambia countries undergoing or which have undergone a recent transition to a free market economy and countries facing similar macro economic developments
