The Economic Geographies of Organized Crime Tim

Hall, 2018-04-09 Illicit and illegal markets play a substantial role in the global economy yet have received little attention from economic geographers. This incisive innovative book examines the spatial dimensions of hidden economic practices and asks how organized crime can be understood empirically and conceptually through a geographical lens. Going beyond stereotypes about gangsters, the book explores the role of spatially distant corporate state and criminal actors in such activities as trafficking and smuggling of drugs, people and goods, counterfeiting, cybercrime, corruption, money laundering, financing of terrorist groups and environmental crime. It suggests ways that a geographical analysis can contribute to improving policies and practices to curb organized crime at the regional, national and global levels. UN Convention against Transnational Organized Crime Andreas Schloenhardt, Francesco Calderoni, Joseph Lelliott, Bettina Weißer, 2023-06-14 This book offers a comprehensive article by article legal commentary on the United Nations Convention Against Transnational Organized Crime and its Protocols on trafficking in persons, smuggling of migrants and trafficking in firearms and ammunition. The Convention, often referred to by the acronym UNTOC, was approved by the UN General Assembly on 15 November 2000 and made available for governments to sign at a high level conference in Palermo, the heartland of the Italian Mafia, on 12-15 December 2000. For this reason, UNTOC is sometimes also referred to as the Palermo Convention. The Convention entered into force on 29 September 2003. The purpose of UNTOC is to promote cooperation to prevent and combat transnational organized crime more effectively. UNTOC seeks to promote consistency among national legal systems and set standards for domestic laws so that States parties can effectively combat transnational organized crime. UNTOC is supplemented by three protocols: the Protocol against the Smuggling of Migrants by Land, Air and Sea; the Protocol to Prevent, Suppress and Punish Trafficking in Persons, especially Women and Children; and the Protocol against the Illicit Manufacturing of and Trafficking in Firearms, their Parts and Components and Ammunition. Article by article, this book presents the text of each provision of the Convention and the Protocols, followed by a systematic analysis of their background and negotiating history, their interpretation by the Conference of the Parties and its working groups, in judicial decisions by domestic and international courts, in the academic literature and in official material published by international organisations, chief among them the United Nations Office on Drugs and Crime (UNODC), the guardian of UNTOC and the Protocols. The authors offer critical scholarly commentary. The book serves as a compendium for those researching or studying provisions under UNTOC and the Protocols and as a handbook for those charged with implementing and enforcing them. The Private Sector and Organized Crime Yuliya Zabyelina, Kimberley L. Thachuk, 2022-09-02 This book contributes to the literature on organized crime by providing a detailed account of the various nuances of what happens when criminal organizations misuse or penetrate legitimate businesses. It advances the existing scholarship on attacks, infiltration and capture of legal businesses by organized crime and sheds light on the important role the private sector can play to fight back. It considers a range of industries from bars and restaurants to labour intensive enterprises such as construction and waste management to sectors

susceptible to illicit activities including transportation wholesale and retail trade and businesses controlled by fragmented legislation such as gambling Organized criminal groups capitalize on legitimate businesses beleaguered by economic downturns government regulations natural disasters societal conflict and the COVID 19 pandemic To survive some private companies have even become the willing partners of criminal organizations Thus the relationships between licit businesses and organized crime are highly varied and can range from victimization of businesses to willing collusion and even exploitation of organized crime by the private sector albeit with arrangements that typically allow plausible deniability In other words these relationships are highly diverse and create a complex reality which is the focus of the articles presented here This book will appeal to students academics and policy practitioners with an interest in organized crime It will also provide important supplementary reading for undergraduate and graduate courses on topics such as transnational security issues transnational organized crime international criminal justice criminal finance non state actors international affairs comparative politics and economics and business courses
