entertainment issues and trends **Captive Audience** Susan Crawford, 2013-01-08 Ten years ago the United States stood at the forefront of the Internet revolution With some of the fastest speeds and lowest prices in the world for high speed Internet access the nation was poised to be the global leader in the new knowledge based economy Today that global competitive advantage has all but vanished because of a series of government decisions and resulting monopolies that have allowed dozens of countries including Japan and South Korea to pass us in both speed and price of broadband This steady slide backward not only deprives consumers of vital services needed in a competitive employment and business market it also threatens the economic future of the nation This important book by leading telecommunications policy expert Susan Crawford explores why Americans are now paying much more but getting much less when it comes to high speed Internet access Using the 2011 merger between Comcast and NBC Universal as a lens Crawford examines how we have created the biggest monopoly since the breakup of Standard Oil a century ago In the clearest terms this book explores how telecommunications monopolies have affected the daily lives of consumers and America's global economic standing **Field & Stream**, 2000-12 FIELD STREAM America's largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice while honoring the traditions hunters and fishermen have passed down for generations **Beyond the Screen** Frank A. Aycok, 2025-11-26 Written in an accessible style this book explores the complex future of television across its different industries providing professional producers with key insights and pathways to adapt and prepare By exploring traditional media industries and how they have come to make up today's streaming and broadcasting media world the text provides a detailed discussion of the future of systems programming and television viewing This includes a wide range of topics such as internet protocol television IPTV set top boxes STBs ATSC 3.0 virtual reality VR holographic television and artificial intelligence AI as well as other cutting edge technologies Additionally this book examines the future of content monetization by exploring the new and sometime controversial ways of advertising product placement and search and promotion that will be required to be financially successful in this future television environment Beyond the Screen is an indispensable addition to the library of every television professional academic student and television viewer who wants to know where this fascinating world of television is heading and what it will take to be successful within it **Forest and Stream**, 1895 The Information Superhighway and Private Households Walter Brenner, Lutz Kolbe, 1996-01-30 Wolfgang Glatthaar International Business Machines IBM Germany The rapid developments in information technology IT will continue through the coming years New application areas will be added Whereas the use of information technology in the past decade has been concentrated primarily on business and public administration in future the suppliers of information technology will develop an increasing number of applications for the private household see fig 1 Traditional perspective New perspective IT solutions for the company private household Fig 1 New perspective on information technology This development has already generated considerable market dynamics Latest

forecasts for the USA suggest that by 1996 at the latest the private household will present greater sales potential for home computers than business and public administration VI Preface Up to now the use of information technology in the private household has not been regarded as highly significant by either business or science even though PCs have become widespread in the private sphere In the ESPRIT framework there have been individual projects dealing with home networks and in a number of Asian and European countries as well as America experiments with interactive television are taking place Internet and commercial online services are experiencing rapid growth This application area for information technology in the private household which is generating increasing business attention must also be the subject of appropriate research activities From City Space to Cyberspace Amanda Wasielewski, 2025-10-01 The narrative of the birth of internet culture often focuses on the achievements of American entrepreneurs in Silicon Valley but there is an alternative history of internet pioneers in Europe who developed their own model of network culture in the early 1990s Drawing from their experiences in the leftist and anarchist movements of the 80s they built DIY networks that give us a glimpse into what internet culture could have been if it were in the hands of squatters hackers punks artists and activists In the Dutch scene the early internet was intimately tied to the aesthetics and politics of squatting Untethered from profit motives these artists and activists aimed to create a decentralized tool that would democratize culture and promote open and free exchange of information
