Good Meal Prep Ideas For Beginners and Dummies Barbara Dawson,2020-08-18 Meal prepping is meal prepping a meal or recipe then portioning it out to grab and go meals for later If you ve ever kept your leftovers from dinner to take with you for lunch then you ve already meal prepped Granted though meal prepping refers to preparing 3-7 days worth of food at a time Think of it like keeping your lunches for the week all at once instead of keeping your lunch in the fridge You can use this same technique for breakfast lunch dinner and snacks Meal prepping not only prevents food waste and reduces the time spent outside your home whether the plan is a diet or a budget When keeping your meal plan for a day the question is how long will you be able to eat homemade meals without having to do it every day Meal prepping is not for everyone It is good for those who value convenience and often more than anything else With meal prepping you can eat the same thing for a few days in a row so if you don't like leftovers or get bored with food meal prepping is not for you If having nutritious food that maximizes your time and budget is more valuable to you than doing something different every day meal prepping is a great idea In general I've seen meal preppers for themselves or maybe one other person do a whole family Meal prepping for a whole family would be quite difficult but the result would be a meal plan that is stored in the refrigerator for a slow day in a while In addition to the way food is packed the individual nuances of your refrigerator can impact the quality of your refrigerated meal So find the level of acceptability for the texture and flavor of the food Always begin with the refrigerator guidelines to be the FDA and then evaluate them against your own preferences In general I don't like to meal prep more than a few days worth of food but I find that better than the food you would buy to eat
