Medical Astrology for Beginners Arun Bansal, The diseases are the result of our past karmas and indicated by weak and afflicted planets This can be easily understood by an astrologer Therefore every book on astrology has discussed the diseases and yogas for these diseases are scattered throughout the astrological literature Some of these Yogas have been compiled in this book for the intelligent readers with the observations and experiences of author Author has used the astrology for the purpose of diagnosis as other laboratory tests MRI and CAT SCAN etc It gave good results to understand whether the chronic diseases are curable or not Moreover it has helped to understand the time period of onset of the disease which no other science can explain Therefore astrology is science of sciences One must be careful while predicting diseases because so many factors are involved in prediction Only the yoga for disease is not sufficient If the yoga is aspected by benefic planets the results will be nullification of malefic influence The disease depends on the strength of the disease producing planets Even if a disease may be indicated from a house from lagna but from Moon and navamsha lagna the same house is strong and lord is fortified the malefic influence may get cancelled Therefore while judging one must consider the house lord of house and karaka of the house rashish where the lord of house is posited i e dispositor and navamshesh the lord of house in navamsha chart where the lord of the house is posited and relationship in navamsha chart between lagna lord and lord of the house into consideration from lagna Moon navamsha lagna and nakshatra of the planet in which he is posited One must take into consideration the nature and qualities of the planets causing the disease functional benefic or malefic to the lagna house in which they are posited The benefic planet will certainly cause less harm than the malefic planet The relationship between the two planets also affects the disease producing capacity The relationship is also natural and functional The aspect and conjunction of the planets should also be taken into consideration The retrograde malefic planet is more powerful in causing diseases than the normal malefic planet The retrograde benefic planet does not protect the native When a benefic planet is lord of maraka house and posited in that house it becomes strong maraka planet Keeping the above factors into consideration we can predict the timing of onset of diseases with the help of dasha system and Gochar The most common dasha system employed is Vimshottari dasha system Still we can divided the timing of diseases into 1 Yogas present in the horoscope 2 Dasha bhukti Paratyantar dasha 3 Transit Gochar 4 Horary All these factors have been discussed in this book in detail

Essentials of Medical Astrology Dr. K S Charak, 2002

Medical Astrology Raj Kumar, Medical astrology is a specialized branch of Vedic astrology It is an

extraordinary predictive and counseling tool A horoscope indicates good bad or indifferent traits and physical emotional or spiritual characteristics of the native as per the Karmic flow A chart is only the representation of one s Karmic implications in one s life through planetary influences The medical astrology helps in understanding well in advance where the human chain is the weakest in the physical body and why An astute astrologer will be able to diagnose disease and the diseased body part merely by analysis of the horoscope He should be able to tell the susceptibility or the resistance which a native has for a particular disease He may be able to tell the period of onset recovery from the disease and can also suggest the remedial measures to reduce its severity without any side effect Once this is known it will be easier for medicos to quickly arrive at the cause and place of diseased body part and the treatment to which the patient will respond The diseases are generally indicated by the malefic influences of planets Houses signs and Nakshtras wherein the planets are placed indicate tendencies susceptibility resistance and potential of various ailments in the body When these potential will manifest depends upon the dasha periods and transit of planets The numbers of diseases which a native may have to encounter are numerous However this book touches upon 112 diseases with the help of 102 illustrative charts The last 16th chapter of this book is devoted to common astrological remedies with a new Karmic and practical point of view to propitiate evil planets causing ailments

Medical Astrology-A Rational Approach J.N. Bhasin,1970 It has been endeavoured to introduce a few specialties in this book Firstly to discuss for the benefit of the student of astrology a maximum number of diseases under astrological laws Secondly to supply in support of that discussion as many illustrations from actual life as is possible with a view to make the subject readily understandable Thirdly we have tried to place the astrological material in a rational logical manner so that the question of health and disease can be tackled in an independent way without being too much subservient to the shlokas of the text We do meet with shlokas dealing with most of the diseases but there are very few books if at all which discuss the how and why of disease We have attempted to discuss the constituents of diseases and the astrological factors representing them severely in order that the student can extend the application of the method to new diseases **Shanker Adawal's**
