Webster,2020-12-01 This book was the first book ever published in America on the subject of quilts and contains all the information one might want to know about the topic The quilt has a tradition of long centuries of slow but certain progress Its story is replete with incidents of love and daring of sordid pilfering and generous sacrifices The same type of handiwork that has sheltered the simple peasant from wintry blasts has adorned the great halls of doughty warriors Complete with panoply of images and a wealth of interesting text this book is a must have for any quilting enthusiast Marie Daugherty Webster was a business woman quilt designer and the author Originally published in 1915 we are proud to republish this scarce book here with a new introductory biography of the author Ernest Gimson Annette Carruthers,Mary Greensted,Barley Roscoe,2019-10-04 This rich new volume brings to light the versatility and accomplishments of the English architect designer and maker Ernest Gimson a central figure in the Arts and Crafts Movement The Bayeux Tapestry John F. Szabo,Nicholas E. Kuefler,2015-06-18 Commanding its own museum and over 200 years of examination observation and scholarship the monumental embroidery known popularly as the Bayeux Tapestry and documenting William the Conqueror s invasion of England in October 1066 is perhaps the most important surviving artifact of the Middle Ages This magnificent textile both celebrated and panned is both enigmatic artwork and confounding historical record With over 1780 entries Szabo and

Kuefler offer the largest and most heavily annotated bibliography on the Tapestry ever written. Notably the Bayeux Tapestry has produced some of the most compelling questions of the medieval period: Who commissioned it and for what purpose? What was the intended venue for its display? Who was the designer and who executed the enormous task of its manufacture? How does it inform our understanding of eleventh century life? And who was the mysterious Aelfgyva depicted in the Tapestry's main register? This book is an effort to capture and describe the scholarship that attempts to answer these questions. But the bibliography also reflects the popularity of the Tapestry in literature, covering a surprisingly broad array of subjects. The inclusion of this material will assist future scholars who may study references to the work in contemporary non-fiction and popular works as well as use of the Bayeux Tapestry as a primary and secondary source in the classroom. The monographs, articles, and other works cited in this bibliography reflect dozens of research areas. Major themes are the Tapestry as a source of information for eleventh century material culture; its role in telling the story of the Battle of Hastings and events leading up to the invasion; patronage of the Tapestry; biographical detail on known historical figures in the Tapestry; arms and armor; medieval warfare strategy and techniques; *opus anglicanum*; the Anglo-Saxon needlework tradition; preservation and display of the artifact; the Tapestry's place in medieval art; the embroidery's depiction of medieval and Romanesque architecture; and the life of the Bayeux Tapestry itself.

John Hunt Brian O'Connell, 2014-01-23. The book tells for the first time the remarkable life story of John Hunt, one of the world's greatest medievalists and someone whose legacy to Ireland lives on today with most of the major cultural attractions in the Shannon region, including Bunratty Castle and Folk Park and the Hunt Museum, owing their existence to either his initiative or generosity. Details of his family background are also provided, which differ greatly from those previously published. This biography brings together a host of information about one of the most remarkable figures in the 20th century art scene, who collected treasures that can be found in some of the world's major museums.
