Medieval Worlds An Introduction To European History 300 1492:

Medieval Worlds Jo Ann Hoepfner Moran Cruz, Richard A. Gerberding, 2004 This text designed for use in one and two term medieval history courses is based on a political framework that includes social and cultural history It emphasizes both high and popular culture exploring what life was like in the court the city the countryside and academia The text primarily focuses on Europe but also gives extensive attention to the areas that affected Europe such as Byzantium and the Islamic world *Handbook of Medieval Culture. Volume 3* Albrecht Classen, 2015-08-31 A follow up publication to the Handbook of Medieval Studies this new reference work turns to a different focus medieval culture Medieval research has grown tremendously in depth and breadth over the last decades Particularly our understanding of medieval culture of the basic living conditions and the specific value system prevalent at that time has considerably expanded to a point where we are in danger of no longer seeing the proverbial forest for the trees The present innovative handbook offers compact articles on essential topics ideals specific knowledge and concepts defining the medieval world as comprehensively as possible The topics covered in this new handbook pertain to issues such as love and marriage belief in God hell and the devil education lordship and servitude Christianity versus Judaism and Islam health medicine the rural world the rise of the urban class travel roads and bridges entertainment games and sport activities numbers measuring the education system the papacy saints the senses death and money *A Cultural History of Education in the Medieval Age* Jo Ann Moran Cruz, 2023-04-20 A Cultural History of Education in the Medieval Age presents essays that examine the following key themes of the period church religion and morality knowledge media and communications children and childhood family community and sociability learners and learning teachers and teaching literacies and life histories The medieval world was a rich blend of cultures and religions within which individuals were shaped and schooled Men and women learned taught worked fought and prayed in social contexts that witnessed an expansion of literacy and learning The chapters in this volume illustrate the extent to which medieval education formed the foundation of the modern educational enterprise An essential resource for researchers scholars and students in history literature culture and education **History Matters** Judith M. Bennett, 2010-11-24 Written for everyone interested in women s and gender history History Matters reaffirms the importance to feminist theory and activism of long term historical perspectives Judith M Bennett who has been commenting on developments in women s and gender history since the 1980s argues that the achievement of a more feminist future relies on a rich plausible and well informed knowledge of the past and she asks her readers to consider what sorts of feminist history can best advance the struggles of the twenty first century Bennett takes as her central problem the growing chasm between feminism and history Closely allied in the 1970s each has now moved away from the other Seeking to narrow this gap Bennett proposes that feminist historians turn their attention to the intellectual challenges posed by the persistence of patriarchy She posits a patriarchal equilibrium whereby despite many changes in women s experiences over past centuries women s status vis vis

that of men has remained remarkably unchanged Although for example women today find employment in occupations unimaginable to medieval women medieval and modern women have both encountered the same wage gap earning on average only three fourths of the wages earned by men Bennett argues that the theoretical challenge posed by this patriarchal equilibrium will be best met by long term historical perspectives that reach back well before the modern era In chapters focused on women s work and lesbian sexuality Bennett demonstrates the contemporary relevance of the distant past to feminist theory and politics She concludes with a chapter that adds a new twist the challenges of textbooks and classrooms to viewing women s history from a distance and with feminist intent A new manifesto History Matters engages forthrightly with the challenges faced by feminist historians today It argues for the radical potential of a history that is focused on feminist issues aware of the distant past attentive to continuities over time and alert to the workings of patriarchal power

The ^AGlobal Politics of Jesus Nilay Saiya, 2022-05-20 Blending normative public theology and empirical political science Nilay Saiya formulates and applies an ethic of Jesus to the realm of global politics Rejecting conventional theories he makes the argument that the ethic of Jesus calls for the church to avoid seeking special favor with the state even as it strives to engage with and uplift the world around it through its prophetic witness Using global data and case studies The Global Politics of Jesus examines the paradox of privilege with respect to some of the most important areas in contemporary global politics violence and persecution human rights foreign policy and peace and reconciliation and considers its implications for the church itself

Religious Secularity Naser Ghobadzadeh, 2017-02-09 Using Iran as a case study Ghobadzadeh investigates the paradoxes of the Islamic state ideal He develops the seemingly oxymoronic term religious secularity and uses it to describe the Islamic quest for a democratic secular state

Human Behavioral Ecology Jeremy Koster, Brooke Scelza, Mary K. Shenk, 2024-03-14 Human behavioral ecology HBE applies the principles of evolutionary theory and optimisation to the study of human behavioural and cultural diversity Among other things HBE attempts to explain variation in behaviour as adaptive solutions to the competing life history demands of growth development reproduction parental care and mate acquisition This book is a comprehensive introduction to the theoretical orientation and specific findings of HBE It consolidates the insights of evolution and human behaviour into a single volume that reflects the current state and future of the field It brings together leading scholars from across the evolutionary social sciences to provide a comprehensive and thought provoking review of the state of the topic Throughout the authors explain the latest

Edson, 2007-05-30 In the two centuries before Columbus mapmaking was transformed *The World Map 1300 1492* investigates this important transitional period of mapmaking Beginning with a 1436 atlas of ten maps produced by Venetian Andrea Bianco Evelyn Edson uses maps of the fourteenth and fifteenth centuries to examine how the discoveries of missionaries and merchants affected the content and configuration of world maps She finds that both the makers and users of maps struggled with changes brought about by technological innovation the compass quadrant and astrolabe rediscovery of classical mapmaking approaches and increased travel To reconcile the tensions between the conservative and progressive worldviews mapmakers used a careful blend of the old and the new to depict a world that was changing and growing before their eyes This engaging and informative study reveals how the ingenuity creativity and adaptability of these craftsmen helped pave the way for an age of discovery **The Christian Roots of Individualism** Maureen P. Heath, 2019-11-28 The

modern West has made the focus on individuality individual freedom and self identity central to its self definition and these concepts have been crucially shaped by Christianity This book surveys how the birth of the Christian worldview affected the evolution of individualism in Western culture as a cultural meme Applying a biological metaphor and Richard Dawkins definition of a meme this work argues the advent of individualism was not a sudden innovation of the Renaissance or the Enlightenment but a long evolution with characteristic traits This evolution can be mapped using profiles of individuals in different historical eras who contributed to the modern notion of individualism Utilizing excerpts from original works from Augustine to Nietzsche a compelling narrative arises from the slow but steady evolution of the modern self The central argument is that Christianity with its characteristic inwardness was fundamental in the development of a sense of self as it affirmed the importance of the everyday man and everyday life **Christianity** ,

Drakspår Bo Eriksson, 2024-01-31. En drake är en reptil av osedvanlig storlek och utgör den främsta av alla bestar om vi ska tro bestiarierna. Medeltidens illustrerade verk om djur och väsen. Just medeltidens bild av draken, ond och skrämmande, eldsprutande, vaktande, stora rikedomar, är nog den viktigaste igenkomsten från sagor och berättelser medan draken i andra delar av världen och historien har stått för en positiv kraft. Oavsett om draken används för att skrämmas med eller tjäna som kejserligt ideal, har alla sorters folkslag i sig gott som alla tider fascinerats av denna bevingade reptil. Vad beror det på? Hur kommer det sig att föreställningen om draken funnits över hela världen sedan historiens början? Historiker Bo Eriksson berättar drakens kulturhistoria från de allra äldsta myterna i Mesopotamien och vikingatidens Fafner fram till dagens värld och eldsprutande monsterreptiler i Game of Thrones. Det är en engagerande och underhållande beskrivning av ett fenomen som förbinder oss med såväl medeltiden som den första civilisationerna som folk i modern tid. Men också en skildring av människans försök att via vidunder förstå sig själv och sin plats i världen, historien och kosmos.
